Each chapter of the collection focuses on influential contemporary plays and playwrights.

Contemporary European Playwrights Maria M. Delgado, Bryce Lease, Dan Rebellato, 2020-07-22 *Contemporary European Playwrights* presents and discusses a range of key writers that have radically reshaped European theatre by finding new ways to express the changing nature of the continent's society and culture and whose work is still in dialogue with Europe today. Traversing borders and languages this volume offers a fresh approach to analyzing plays in production by some of the most widely performed European playwrights assessing how their work has revealed new meanings and theatrical possibilities as they move across the continent building an unprecedented picture of the contemporary European repertoire. With chapters by leading scholars and contributions by the writers themselves the chapters bring playwrights together to examine their work as part of a network and genealogy of writing examining how these plays embody and interrogate the nature of contemporary Europe. Written for students and scholars of European theatre and playwriting this book will leave the reader with an understanding of the shifting relationships between the subsidized and commercial the alternative and the mainstream stage and political stakes of playmaking in European theatre since 1989. **A Narratology**

of Drama Christine Schwanecke, 2022-01-19 This volume argues against Gerard Genette's theory that there is an insurmountable opposition between drama and narrative and shows that the two forms of storytelling have been productively intertwined throughout literary history. Building on the idea that plays often incorporate elements from other genres especially narrative ones the present study theorises drama as a fundamentally narrative genre. Guided by the question of how drama tells stories the first part of the study delineates the general characteristics of dramatic narration and zooms in on the use of narrative forms in drama. The second part proposes a history of dramatic storytelling from the Renaissance to the twenty first century that transcends conventional genre boundaries. Close readings of exemplary British plays provide an overview of the dominant narrative modes in each period and point to their impact in the broader cultural and historical context of the plays. Finally the volume argues that throughout history highly narrative plays have had a performative power that reached well beyond the stage dramatic storytelling not only reflects socio-political realities but also largely shapes them.

Contemporary Black British Playwrights L. Goddard, 2015-02-17 This book examines the socio-political and theatrical conditions that heralded the shift from the margins to the mainstream for black British Writers through analysis of the social

Stage Business and the Neoliberal Theatre of London Alex Ferrone, 2021-01-21 This book examines contemporary English drama and its relation to the neoliberal consensus that has dominated British policy since 1979 The London stage has emerged as a key site in Britain s reckoning with neoliberalism On one hand many playwrights have denounced the acquisitive values of unfettered global capitalism on the other plays have more readily revealed themselves as products of the very market economy they critique their production histories and formal innovations uncomfortably reproducing the strategies and practices of neoliberal labour markets *Stage Business and the Neoliberal Theatre of London* thus arrives at a usefully ambivalent political position one that praises the political power of the theatre its potential as a form of resistance to the neoliberal rationality that rides roughshod over democratic values while simultaneously attending to the institutional bondage that constrains it For of course the theatre itself everywhere straddles the line of capitulating to the marketization of our cultural life
