Richard Brookes

Straits Of Mebina:

Darby's Edition of Brookes' Universal Gazetteer; or, a New geographical dictionary ... Illustrated by a ... map of the United States. The third American edition, with ample additions and improvements: by William Darby Richard BROOKES (M.D.), 1823 **Darby's Edition of Brooke's Universal Gazetteer, Or, A New Geographical Dictionary** Richard

Brookes, 1828 **Straits** Felipe Fernandez-Armesto, 2022-03-29 An uncompromising study of the fictions the failures and the real man behind the myth of Magellan With Straits celebrated historian Felipe Fernandez Armesto subjects the surviving sources to the most meticulous scrutiny ever providing a timely and engrossing biography of the real Ferdinand Magellan The truth that Fernandez Armesto uncovers about Magellan's life his character and the events of his ill fated voyage offers up a stranger darker and even more compelling narrative than the fictional version that has been celebrated for half a millennium Magellan did not attempt much less accomplish a journey around the globe In his lifetime he was abhorred as a traitor reviled as a tyrant self condemned to destruction and dismissed as a failure Straits untangles the myths that made Magellan a hero and discloses the reality of the man probing the passions and tensions that drove him to adventure and drew him to disaster We see the mutations of his character pride that became arrogance daring that became recklessness determination that became ruthlessness romanticism that became irresponsibility and superficial piety that became in adversity irrational exaltation As the real Magellan emerges so do his real ambitions focused less on circumnavigating the world or cornering the global spice market than on exploiting Filipino gold Straits is a study in failure and the paradox of Magellan's career showing that renown is not always a reflection of merit but often a gift and accident of circumstance
