Trevor Albertson

Strategic Air Command:

Strategic Air Warfare Richard H. Kohn, Joseph P. Harahan, 1988 The ability of the American air forces to wage war independently and to carry the battle to the enemy's heartland has played a critical role in American air doctrine and military strategy since the 1930s Generals LeMay Johnson Burchinal and Catton explain their roles in flying and commanding bombing missions and campaigns during World War II in creating the atomic force in the immediate postwar years and in building the Strategic Air Command in the 1950s The Cuban Missile Crisis and the Vietnam War are also discussed

Strategic Air Command Mel Hunter, 1961 *The Strategic Air Command* William S. Borgiasz, 1996-01-09 This work analyzes the evolution of the U S strategic air force from 1945 to 1955 As commander of the Strategic Air Command SAC from 1948 through 1955 Curtis LeMay shaped U S strategic forces to survive the new world He insisted that the Air Force have access to atomic energy information for strategic planning He struggled to find promote and retain the most qualified pilots and support personnel in the Air Force This work describes the evolution of Air Force strategic forces describes the importance of personnel to the SAC mission and how LeMay addressed the problem examines the development of specialized maintenance in SAC traces the transition from the B 47 to the B 52 and explores the importance of intelligence and targeting

Strategic Air Command Edward G. Longacre, 1990 SAC 20 United States. Air Force. Strategic Air Command, Don Smith, 1966 **Strategic Air Command** Rita F. Clark, Herman F. Martin, 1988 **Always at War** Melvin G. Deaile, 2018-04-15 Always at War is the story of Strategic Air Command SAC during the early decades of the Cold War More than a simple history it describes how an organization dominated by experienced World War II airmen developed a unique culture that thrives to this day Strategic Air Command was created because of the Air Force's internal beliefs but the organization evolved as it responded to the external environment created by the Cold War In the aftermath of World War II and the creation of an independent air service the Air Force formed SAC because of a belief in the military potential of strategic bombing centralized under one commander As the Cold War intensified so did SAC's mission In order to prepare SAC's warriors to daily fight an enemy they did not see as well as to handle the world's most dangerous arsenal the command led by General Curtis LeMay emphasized security personal responsibility and competition among the command Its resources political influence and manning grew as did its culture until reaching its peak during the Cuban Missile Crisis SAC became synonymous with the Cold War and its culture forever changed the Air Force as well as those who served Combat Crew, 1980 *Winning Armageddon* Trevor Albertson, 2019-05-15 Winning Armageddon provides definition to an all too long misunderstood figure of the Cold War General Curtis E LeMay and tells the story of his advocacy for preemptive nuclear strikes while leading the U S Air Force's Strategic Air Command In telling this story Trevor Albertson builds for the reader a world that while not in the distant past has been forgotten by many the lessons of that past however are as applicable today as they were 65 years ago This work brings to life the challenges fears and responses of a Cold War United States that

grappled with a problem that did not have a clear solution nuclear war LeMay argued for striking first in a potential nuclear conflict but only if and when it was clear that the enemy was preparing to launch their own surprise attack This approach commonly referred to as preemption was designed to catch an attacker off guard and prevent the destruction of one's own nation LeMay hoped that rather than plunging the world into a fruitless nuclear exchange he could diffuse the conflict at its outset

To Rule the Skies Brent D Ziarnick, 2021-02-15 To Rule the Skies General Thomas S Power and the Rise of Strategic Air Command in the Cold War fills a critical gap in Cold War and Air Force history by telling the story of General Thomas S Power for the first time Thomas Power was second only to Curtis LeMay in forming the Strategic Air Command SAC one of the premier combat organizations of the twentieth century but he is rarely mentioned today What little is written about Power describes him as LeMay's willing hatchet man uneducated unimaginative autocratic and sadistic Based on extensive archival research General Power seeks to overturn this appraisal Brent D Ziarnick covers the span of both Power's personal and professional life and challenges many of the myths of conventional knowledge about him Denied college because his middle class immigrant family imploded while he was still in school Power worked in New York City construction while studying for the Flying Cadet examination at night in the New York Public Library As a young pilot Power participated in some of the Army Air Corps most storied operations In the interwar years his family connections allowed Power to interact with American Wall Street millionaires and the British aristocracy Confined to training combat aircrews in the United States for most of World War II Power proved his combat leadership as a bombing wing commander by planning and leading the firebombing of Tokyo for Gen Curtis LeMay After the war Power helped LeMay transform the Air Force into the aerospace force America needed during the Cold War A master of strategic air warfare he aided in establishing SAC as the Free World's Big Stick against Soviet aggression Far from being unimaginative Power led the incorporation of the nuclear weapon the intercontinental ballistic missile the airborne alert and the Single Integrated Operational Plan into America's deterrent posture as Air Research and Development Command commander and both the vice commander and commander in chief of SAC Most importantly Power led SAC through the Cuban Missile Crisis in 1962 Even after retirement Power as a New York Times bestselling author brought his message of deterrence through strength to the nation Ziarnick points out how Power's impact may continue in the future Power's peerless but suppressed vision of the Air Force and the nation in space is recounted in detail placing Power firmly as a forgotten space visionary and role model for both the Air Force and the new Space Force To Rule the Skies is an important contribution to the history of the Cold War and beyond *History of the United States.
