## **The Pleasure:**

The Pleasure in Drawing Jean-Luc Nancy, 2013-07-16 Originally written for an exhibition Jean Luc Nancy curated at the Museum of Fine Arts in Lyon in 2007 this book addresses the medium of drawing in light of the question of form of form in its formation as a formative force as a birth to form In this sense drawing opens less toward its achievement intention and accomplishment than toward a finality without end and the infinite renewal of ends toward lines of sense marked by tracings suspensions and permanent interruptions Recalling that drawing and design were once used interchangeably Nancy notes that drawing designates a design that remains without project plan or intention His argument offers a way of rethinking a number of historical terms sketch draft outline plan mark notation which includes rethinking drawing in its graphic filmic choreographic poetic melodic and rhythmic senses If drawing is not reducible to any form of closure it never resolves a tension specific to itself Rather drawing allows the pleasure in and of drawing the gesture of a desire that remains in excess of all knowledge to come to appearance Situating drawing in these terms Nancy engages a number of texts in which Freud addresses the force of desire in the rapport between aesthetic and sexual pleasure texts that also turn around questions concerning form in its formation form as a formative force Between the sections of the text Nancy has placed a series of sketchbooks on drawing composed of a broad range of quotations on art from different writers artists or philosophers

Stephen Davies's new book collects some of his most important papers on central topics in the philosophy of music. As well as perennial questions, Davies addresses contemporary controversies including the impact of modern technology on the presentation and reception of both new and old musical works. These essays, two of them new and previously unpublished, are self-standing but thematically connected and will be of great interest to philosophers, aestheticians, and to theorists of music and art.
