The Lunar Cult Albert Churchward,2005-12 This scarce antiquarian book is a facsimile reprint of the original Due to its age it may contain imperfections such as marks notations marginalia and flawed pages Because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world s literature in affordable high quality modern editions that are true to the original work *That Old-Time Religion* Jordan Maxwell,Paul Tice,Alan Snow,2000 This book proves there is nothing new under the sun regarding many of our modern religious beliefs This includes Christianity and how many of its beliefs could be far older than what we have suspected It gives a complete run down of the stellar lunar and solar evolution of our religious systems and contains new long awaited exhaustive research on the gods and our beliefs **Matrix of Power** Jordan Maxwell,2000-05 Who really runs the world Who controls the money the politics and almost every facet of life without you knowing a thing about it Is such a thing possible Maxwell grew up in a family that had high ranking insiders in international politics and religion so had access to information that few people could imagine He continued with a lifetime of investigation and is now considered the worlds foremost authority on ancient religions and modern conspiracies He has appeared on three CBS television specials and countless radio shows His work on the true meaning of symbols in politics religion and major corporations is also covered in this highly illustrated book Explore this fascinating subject with a man who has devoted a lifetime of study to uncovering our hidden masters Revival: Origin and Evolution of the Human Race (1921) Albert Churchwood,2018-01-17 Where and when did man make his first appearance on this earth The object of this book is to bring before the public such further facts and values regarding the evolution of man After studies Churchwood made during many years he is now fully convinced that the hitherto preconceived ideas of many scientists regarding the origin of the human race both as to place and date are erroneous and evidence will be brought forward to prove that the human race did not originate in Asia but in Africa
