

The Piltdown Skull

Sir Arthur Keith

The Piltdown Skull:

The Piltdown Man Hoax Dr Miles Russell,2012-05-30 Piltdown Even today the name sends a shiver down the collective spine of the scientific community for this was the most dramatic and daring fraud ever perpetrated upon the world of science and academia Between 1908 and 1912 a series of amazing discoveries relating to what appeared to be the earliest human were made close to the little village of Piltdown in Sussex These remains belonged to the developmental missing link between man and ape The basic principles of evolution first propounded by Charles Darwin some fifty years before now appeared as indisputable fact The Manchester Guardian ran the first headline THE EARLIEST MAN REMARKABLE DISCOVERY IN SUSSEX A SKULL MILLIONS OF YEARS OLD it screamed adding that the discovery was one of the most important of our time The news spread quickly around the world with many voicing their eagerness to examine the find Few archaeological discoveries have the capacity to be front page news twice over but Piltdown Man is a rare exception Forty one years after he first became famous the Earliest Englishman was again hot news It was late November 1953 and the world was about to discover that Piltdown Man had been a hoax Not just any hoax mind the London Star declared it to be THE BIGGEST SCIENTIFIC HOAX OF THE CENTURY

Significance of the Piltdown Skull George Grant MacCurdy,1913 **The Piltdown Inquest** Charles Blinderman,1986

Piltdown Frank Spencer,Ian Langham,1990 On the night of December 18 1912 a packed meeting of the Geological Society of London listened to Charles Dawson a rural lawyer and an amateur geologist make an exciting announcement he had found evolution s missing link in an old gravel pit near Piltdown Common Together with Arthur Smith Woodward Keeper of Geology at the British Museum and a noted authority on prehistoric archaeology Dawson had discovered the shattered remnants of a thick human like skull together with a simian jaw the fossils of a strange creature halfway between apes and human beings Though debates raged over reconstructing Piltdown Man from these remains few doubted their authenticity and it was not until forty years later that further tests proved they were an elaborate fake Written by anthropologist Frank Spencer Piltdown tells the story of this incredible hoax the greatest forgery in the history of modern science Spencer begins by taking us back to the debates in Edwardian Britain over the antiquity of Homo sapiens and the public excitement over the search for the missing link between apes and human beings He recounts Dawson s initial discovery of the shattered skull the further dramatic finds made with Woodward in the midst of the furious scientific debate over Piltdown Man and the great

public argument between Woodward and Arthur Keith over the reconstruction of the head Keith an anatomist and Conservator of the Hunterian Museum of the Royal College of Surgeons won fame by promoting his own theory of a very human like version of the Piltdown skull Spencer also traces the increasing confusion and doubt over Piltdown Man as later archaeological discoveries were made in Africa and China the Piltdown Man didn't seem to fit the emerging picture of human evolution and an ever larger number of scientists claimed that the jaw did not belong with the skull Finally he captures the dramatic uncovering of the hoax closely following anthropologist Joseph Weiner's fascinating investigation in 1953 Weiner troubled by the inconsistencies of Piltdown Man revealed that the remains consisted of a modern human skull and the jaw of an orangutan treated with chemicals to simulate great age and planted at the Piltdown site Yet the question of who perpetrated the forgery has remained to the present day Certainly Dawson a rural solicitor who craved a great scientific reputation was intimately involved But who provided the tremendous expertise behind the hoax and why would such a learned authority risk his career on a highly public fake Was it Woodward the great archaeologist most closely associated with the find Keith the prominent anatomist Or was it Teilhard de Chardin the French priest who found a critical tooth at the site Spencer draws on original documents from the archives of the British Museum and other sources to identify the missing conspirator in a startling and convincing revelation Compelling and authoritative **Piltdown** offers a gripping account of this great hoax and the final word on one of the deepest mysteries of modern science
