The Plague Dogs:

The Plague Dogs Richard Adams, 2010-11-03 This modern day classic is an unforgettable tale of fantasy and adventure a powerful exploration of the limits of human cruelty and kindness A gripping compelling tale of emotional force and high suspense The Wall Street Journal Rowf a shaggy black mongrel and Snitter a black and white fox terrier are among dozens of animals being cruelly held in a testing facility in North West England When one of the handlers fails to close Rowf's cage properly the two dogs make a daring escape into the English countryside where they befriend a red fox who helps them survive in the wild But as rumors circulate that the dogs may have been the test subjects for biological weapons and could be carrying a terrible plague they soon find themselves targets of a great dog hunt Local farmers politicians scientists and even the military join in the search to track them down *The plague dogs* Richard Adams, 1974 **The Plague Dogs**, 2005

The Plague Dogs Richard Adams, Robert Adams, 1983-12-12 **The Plague Dogs** Richard Adams, 2002 Two dogs a fox terrier and a black Labrador escape from a research laboratory in the Lake District They team up with a fox and live wild When it is discovered that the dogs may be carriers of bubonic plague they are hunted down remorselessly **Screening the Nonhuman** Amber E. George, J.L. Schatz, 2016-04-27 Screening the Nonhuman draws connections between how animals represented on screen translate into reality In doing so the book demonstrates that consuming media is not a neutral act but rather a political one The images humans consume have real world consequences for how animals are treated as actors as pets and in nature The contributors propose that altering the representations of animals can change the way humans relate to non humans Our hope is for humans to generate more ethical relationships with non humans ultimately mediating reality both in terms of fiction and non fiction To achieve this end film television advertisements and social media are analyzed through an intersectional lens But the book doesn't stop here Each author creates counter representational strategies that promise to unweave the assumptions that have led to the mistreatment of humans and non humans alike Creative Compassion, Literature and Animal Welfare Michael J. Gilmour, 2020-10-27 This book examines animal welfare themes in fiction and considers how authors of the last two centuries undermine dominative attitudes toward the nonhuman Appearing alongside the emerging humane movements of the nineteenth century and beyond is a kind of storytelling sympathetic to protectionist efforts well described as a literature of protest Compassion inclined tales like the Dolittle adventures by Hugh Lofting educate readers on a wide range of ethical questions empathize with the vulnerable and envision peaceful coexistence with other species Memorable characters like Black Beauty and Beautiful Joe Ivan the gorilla and Louis the trumpeter swan Hazel and Cheeta Mr Bultitude and Doctor Rat do not merely amuse They are voices from the margins who speak with moral urgency to those with ears to hear This broad survey of ethical themes in animal fiction highlights the unique contributions creative writers make toward animal welfare efforts **Vegetarian Times**, 1985-04 To do what no other magazine does Deliver simple delicious food plus expert health and lifestyle information that's exclusively vegetarian

but wrapped in a fresh stylish mainstream package that's inviting to all. Because while vegetarians are a great vital passionate niche, their healthy way of eating and the earth-friendly values it inspires appeals to an increasingly large group of Americans. VT's goal: To embrace both.

Gothic Animals Ruth Heholt, Melissa Edmundson, 2019-12-10. This book begins with the assumption that the presence of non-human creatures causes an always-already uncanny rift in human assumptions about reality. Exploring the dark side of animal nature and the otherness of animals as viewed by humans and employing cutting-edge theory on non-human animals, eco-criticism, literary and cultural theory, this book takes the Gothic genre into new territory. After the dissemination of Darwin's theories of evolution, nineteenth-century fiction quickly picked up on the idea of the animal within. Here the fear explored was of an unruly, defiant, degenerate and entirely amoral animality lying mostly dormant within all of us. However, non-humans and humans have other sorts of encounters too, and even before Darwin humans have often had an uneasy relationship with animals, which as Donna Haraway puts it, have a way of looking back at us. In this book, the focus is not on the animal within but rather on the animal without, other and entirely incomprehensible.

The Worlds of Wes Anderson Adam Woodward, 2024-10-22. In all his films, Wes Anderson turns the mundane into magic by building distinctive and eccentric worlds. But how well do you know the man behind the camera? Discover the inspirations of one of our most revered auteurs with *The Worlds of Wes Anderson*. Anderson's playful and vibrant aesthetic is universally admired, but how has he managed to create such a recognisable identity? From Hitchcock and Spielberg to Truffaut and Varda, there are countless homages and references scattered throughout Anderson's filmography, while his cultural anchor points go far beyond film and into the worlds of art and literature. Evocations of place and time underpin his work, from mid-century Paris in *The French Dispatch* to grand pre-war Europe in *The Grand Budapest Hotel*, while cultural institutions such as Jacques Cousteau and *The New Yorker* magazine are other touchstones. For Wes Anderson fans and cinephiles alike, this is an essential insight into the creative process of one of the world's most unique filmmakers.
