**Bodyhacking and Radical Human Modification** Emma Tumilty, Michele Battle-Fisher, 2022-09-29 This book surveys the distinctions that underlie the unbound potential and existential risks of life expansion and radical modifications posed by a transhuman world Humanness is in flux as human bodies are being hacked and altered in their quest for super wellness super intelligence and super longevity Now is the time to discuss how best to think about dealing with bodies that have been hacked to exceed natural physical limits or more technically species typical functioning Enter the advent of transhumanism to take uncertainty by the horns According to transhumanists death is unnecessary and medical conventions undermine the possibility to radically evolve To biohackers there is no need to wait to explore the risks that conventional medicine dares not This book is of interest to anyone interested in tapping into this growing movement of modifying the human body as it is right now

*Beyond Liminality* Jack David Eller, 2024-07-08 *Beyond Liminality Ontologies of Abundant Betweenness* examines the concept of liminality in the social sciences and humanities and advocates for a more critical use of the concept while offering more precise alternatives Originally conceived in response to the near universal ritualization of changes of status i e rites of passage liminality was a welcome and much needed correction to the reigning static and structural models of culture at the time However it soon escaped its initial realm and was enthusiastically and mostly uncritically absorbed by many if not all scholarly disciplines The very success of the concept suggests that there is something about it that resonates with our own cultural sentiments However the assumptions that underlie diagnoses of liminality are seldom noted and even more seldom analyzed and critiqued This book examines the history of the concept its evolution and its current status and asks whether liminality accurately reflects lived realities which might better be described by fluidity hybridity multiplicity constant motion and recombination and abundant betweenness *Beyond Liminality Ontologies of Abundant Betweenness* is key reading for scholars and students across the social sciences and humanities interested in ritual performance identity formation rights ontology and epistemology      **Virtual Immortality - God, Evolution, and the Singularity in Post- and**

**Transhumanism** Oliver Krüger,2021-10-01 In recent years ideas of post and transhumanism have been popularized by novels TV series and Hollywood movies According to this radical perspective humankind and all biological life have become obsolete Traditional forms of life are inefficient at processing information and inept at crossing the high frontier outer space While humankind can expect to be replaced by their own artificial progeny posthumanists assume that they will become an immortal part of a transcendent superintelligence Krüger's award winning study examines the historical and philosophical context of these futuristic promises by Ray Kurzweil Nick Bostrom Frank Tipler and other posthumanist thinkers

*Beachheads in Space* Jerry Grey,1983      **The Cunning Farmer** Todd Elliott,2026-03-17 Explores how to reconnect with nature and use practical nature based magic for gardening and farming fertility and abundance Examines Moon work plant magic forest deities Earth energies weather magic the cosmology of ritual and how to work with land spirits Discusses folk magic traditions of North America and Western Europe including the grimoire tradition Western esotericism alchemy Kabbalah and shamanism as well as Taoist principles and Reiki Magic and farming in the minds of ancient people were not separate realms of life but both were woven inextricably into the way people lived Through libations prayers hymns dances sacrifices and rituals ancient farmers connected to the sacred forces the gods nature spirits and ancestors to make the crops grow keep the herds healthy the weather favorable and release energies of fertility These rural farmer priests and priestesses of the ancient past are the spiritual ancestors of today's cunning farmers This book explores folk magic traditions of North America and Western Europe including the grimoire tradition and the practices of witches and cunning folk for increased fertility Todd draws on Western esotericism Taoist principles alchemy Kabbalah Reiki and shamanism to show how to use practical nature based magic just like our ancestors for more abundant gardening and farming He shows how to work with land spirits including meeting the place spirit of your land the genius loci He also explores working with Earth and Moon energies plant magic and forest deities and ritual Learn how to deepen your connection to elemental and celestial forces and explore the idea of rewilding the imagination to enhance your relationship with nature and the spirits that call it home This book is not just a guide to farming but to forging a relationship with the living land It shows that we are surrounded by spiritual powers and with their help we can re-enchanted and reconnect with the land that gives us life

**Aesthetic Hybridity in Mughal Painting, 1526-1658** Valerie Gonzalez,2016-03-03 The first specialized critical aesthetic study to be published on the concept of hybridity in early Mughal painting this book investigates the workings of the diverse creative forces that led to the formation of a unique Mughal pictorial language Mughal pictoriality distinguishes itself from the Persianate models through the rationalization of the picture's conceptual structure and other visual modes of expression involving the aesthetic concept of mimesis If the stylistic and iconographic results of this transformational process have been well identified and evidenced their hermeneutic interpretation greatly suffers from the neglect of a methodologically updated investigation of the images conceptual underpinning Valerie Gonzalez addresses this lacuna by

exploring the operations of cross fertilization at the level of imagistic conceptualization resulting from the multifaceted encounter between the local legacy of Indo Persianate book art the freshly imported Persian models to Mughal India after 1555 and the influx of European art at the Mughal court in the sixteenth and seventeenth centuries The author s close examination of the visuality metaphysical order and aesthetic language of Mughal imagery and portraiture sheds new light on this particular aspect of its aesthetic hybridity which is usually approached monolithically as a historical phenomenon of cross cultural interaction That approach fails to consider specific parameters and features inherent to the artistic practice such as the differences between doxis and praxis conceptualization and realization intentionality and what lies beyond it By studying the distinct phases and principles of hybridization between the variegated pictorial sources at work in the Mughal creative process at the successive levels of the project intention the practice realization and the result product the author deciphers the modalities of appropriation and manipulation of the heterogeneous elements Her unique
