Holy Legionary Youth Roland Clark,2015-11-16 Founded in 1927 Romania s Legion of the Archangel Michael was one of Europe s largest and longest lived fascist social movements In Holy Legionary Youth Roland Clark draws on oral histories memoirs and substantial research in the archives of the Romanian secret police to provide the most comprehensive account of the Legion in English to date Clark approaches Romanian fascism by asking what membership in the Legion meant to young Romanian men and women Viewing fascism from below as a social category that had practical consequences for those who embraced it he shows how the personal significance of fascism emerged out of Legionaries interactions with each other the state other political parties families and friends and fascist groups abroad Official repression fascist spectacle and the frequency and nature of legionary activities changed a person s everyday activities and relationships in profound ways Clark s sweeping history traces fascist organizing in interwar Romania to nineteenth century grassroots nationalist movements that demanded political independence from the Austro Hungarian Empire It also shows how closely the movement was associated with the Romanian Orthodox Church and how the uniforms marches and rituals were inspired by the muscular martial aesthetic of fascism elsewhere in Europe Although antisemitism was a key feature of official fascist ideology state violence against Legionaries rather than the extensive fascist violence against Jews had a far greater impact on how Romanians viewed the movement and their role in it Approaching fascism in interwar Romania as an everyday practice Holy Legionary Youth offers a new perspective on European fascism highlighting how ordinary people performed fascism by working together to promote a unique and totalizing social identity

The Monumental Nation Bálint Varga,2016-12-01 From the 1860s onward Habsburg Hungary attempted a massive project of cultural assimilation to impose a unified national identity on its diverse populations In one of the more quixotic episodes in this Magyarization large monuments were erected near small towns commemorating the medieval conquest of the Carpathian Basin supposedly the moment when the Hungarian nation was born This exactingly researched study recounts the troubled history of this plan which far from cultivating national pride provoked resistance and even hostility among provincial Hungarians Author B lint Varga thus reframes the narrative of nineteenth century nationalism demonstrating the complex relationship between local and national memories
