Transnational Democracy

Bruce Morrison

Transnational Democracy:

Democracy across Borders James Bohman, 2010-01-22 An innovative conception of democracy for an era of globalization and delegation of authority beyond the nation state rule by peoples across borders rather than by the people within a fixed jurisdiction Today democracy is both exalted as the best means to realize human rights and seen as weakened because of globalization and delegation of authority beyond the nation state In this provocative book James Bohman argues that democracies face a period of renewal and transformation and that democracy itself needs redefinition according to a new transnational ideal Democracy he writes should be rethought in the plural it should no longer be understood as rule by the people *demus* singular with a specific territorial identification and connotation but as rule by peoples *demoi* across national boundaries Bohman shows that this new conception of transnational democracy requires reexamination of such fundamental ideas as the people the public citizenship human rights and federalism and he argues that it offers a feasible approach to realizing democracy in a globalized world In his account Bohman establishes the conceptual foundations of transnational democracy by examining in detail current theories of democracy beyond the nation state including those proposed by Rawls Habermas Held and Dryzek and offers a deliberative alternative He considers the importance of communicative freedom in the transnational public sphere including networked communication over the Internet human rights as the normative basis of transnational democracy and the European Union as a transnational polity Finally he examines the relationship between peace and democracy concluding that peace requires democratization on interacting state and supranational levels

Transnational Democracy James Anderson, 2002-11 A multidisciplinary array of experts explore the issues related to globalisation and democracy They focus on federalism multi cultural societies the European Union and potential agents for the democratisation of global institutions

Doing Democracy Differently Henrike Knappe, 2017-01-16 Transnational civil society networks have become increasingly important democratizing actors in global politics Still the exploration of democracy in such networks remains conceptually and methodologically challenging Practice theory provides a framework to study democracy as routinized performances even in contexts of fluid boundaries temporal relations and a diffuse constituency The author attempts to understand how new forms of democratic practice emerge in the interaction between political actors and their structural environments

Political Equality in Transnational Democracy E. Erman, S. Nasstrom, 2013-11-07 This book is about the status of political equality under global political conditions If political equality generally is considered a core feature of democracy it has received little attention among theorists concerned with global governance Given the enormous emphasis on democracy as legitimizing factor in global politics this neglect is noteworthy This book sets out to address what accounts for the neglect on the one hand and how it may be remedied on the other The overall aim is to revitalize the debate on the status of political equality in transnational democracy

Transnational Democracy in Critical and Comparative Perspective Bruce Morrison, 2003 This book brings together

two themes of enormous current intellectual and emotional impact democracy and its institutional forms and the globalization of economic social and cultural affairs The volume pursues the meaning of transnational democracy through an examination of the sources of novel democratic potential at multiple levels from the local to the global To a very great extent this task depends upon a critical analysis of state and nation formation state level democratization and transnational social movement emergence In engaging these complex issues the authors find themselves drawn into intellectual and geographic territories as diverse as European institutional and intellectual history North American and European trade agreements Canadian constitutionalism African state society relations and debates regarding the democratic peace While the coverage is global in its attention to transnational institutions and international non governmental organizations for instance it is also genuinely regional as it seeks out and critically assesses the potential building blocks for a more appropriately democratic future in the varied forms that the institutionalization of globalization assumes around the world

Democrats Without Borders Johan Karlsson,2008

The New Transnationalism Klaus Dingwerth,2007-10-24 Global rules are increasingly made without the direct involvement of states This book explores what this privatisation of global rule making means for democracy Based on contemporary theoretical approaches to democratic global governance it reconstructs three prominent rule making processes in the field of global sustainability politics the World Commission on Dams the Global Reporting Initiative and the Forest Stewardship Council The book argues that if designed properly private transnational rule making can be as democratic as intergovernmental rule making

The Actors of Postnational Rule-Making Elaine Fahey,2015-07-16 Despite its centrality to academic discussions of power and influence there is little consensus in legal scholarship over what constitutes an actor in rule making This book explores the range of actors involved in rule making within European Union law and Public International law and focuses especially on actors that are often overlooked by formative and doctrinal approaches Drawing together contributions from many scholars in various fields the book examines such issues as the accommodation of new actors in the process of postnational rule making the visibility or covertness of actors within the process and the role of social acceptance and legitimacy in postnational rule making In its endeavour to render and examine the work and effect of actors often side lined in the study of postnational rule making this book will be of great use and interest to students and scholars of EU law international law and socio legal studies

Towards a Global Polity Richard Higgott,Morten Ougaard,2002-06-27 The role of law networks and civil society are examined and key theoretical and meta theoretical questions on how to analyse and theorise the global polity what drives it forward and whether it can be democratised are discussed

Pragmatic Cosmopolitanism D. Bray,2016-04-30 Building on the work of philosopher John Dewey Bray develops an approach to transnational democracy called pragmatic cosmopolitanism He argues for an ideal of representative democracy that emphasizes the role of democratic leadership and the development of critical intelligence

Humanities and Social Sciences, 2008 **The Future of Teledemocracy** Theodore Lewis Becker, Christa D. Slaton, 2000-06-30 Drawing on the new physics as the

scientific foundation of transformational politics Becker and Slaton write compellingly about teledemocracy social energy and democratic quanta They outline their quantum political theory in rich detail demonstrating how we have entered a phase of highly charged erratic and sometimes self contradictory packets of social political energy that appears to occur with a rough regularity but with differing levels of velocity and force Becker and Slaton explore the current state and future of televoting electronic town meetings and other initiatives designed to put the public back into public affairs This book will prove to be a fascinating read for scholars students researchers and policymakers interested in new political paradigms politics and public administration

Modern Transnational Democracy Johannes W. Pichler, Bruno Kaufmann, 2012 The Introduction of the European Citizen's Initiative the first transnational participative instrument ever is a milestone in the history of democracy From now on citizens have the same rights as nation states and national parliaments to be the political agenda setters on the supranational level
