I Love Japan (Travel Guide) S. Giger,2018-02-06 Why should you choose this guide book instead of any other Top 4 Reasons It s cheaper than other guide books Fellow other travellers and I tried everything in the travelguide ourselves and I describe in detail to you how we ve done it so that you can travel to the sights on your own and can save money on expensive guided tours or means of transport it s very light because you can access it from your phone or an e reader it will give you lots of inspiration and tells you about hidden gems you don t want to miss it s the best DIY budget travel guide for Japan There are many great guide book options out there Deciding on one can even be a bit overwhelming When I travel I usually rely on Lonely Planet since in my opinion they manage it better than anybody else to mention the most interesting places and the best things to see and do plus you have it all compact in one book However there are two disadvantages since so many people work on the other guide books they are quite costly and if you carry them with you as a book they are also pretty heavy and take a lot of space Which I never have when I travel Somehow my suitcase or backpack always gets too full Therefore I always jot down some notes before I start my travels but I hardly ever carry a guide book with me except maybe as an e reader The second thing I don t like about the other guide books is that even though they mention all the good places or transport options they don t explain how to do it For example what is the easiest option to go on a hike near Tokyo and even have a spectacular view on Mt Fuji Or or how would the locals travel to this place and where would the locals eat In
