

## CHANGE POEMS

### ● A Complaint

There is a change- and I am poor;  
Your love hath been, nor long ago,

### ● Change Upon Change

Five months ago the stream did flow,  
The lilies bloomed within the sedge,

### ● Less Time

Less time than it takes to say it, less tears than it takes  
to die; I've taken account of everything,

### ● Change

Change  
Said the sun to the moon, You cannot stay.

### ● Selfish Soul

I am a selfish soul  
I don't see the sorrows around

### ● For Shame, Deny That Thou Bear'st Love To Any

For shame, deny that thou bear'st love to any  
Who for thy self art so unprovident.

### ● Nothing Permanent

You find nothing permanent  
Disappearance sudden after moment

### ● Absence

Here, ever since you went abroad,  
If there be change no change I see...

**The Will to Change: Poems 1968-1970** Adrienne Rich, 1971-05-17 The Will to Change is an extraordinary book of poems It has the urgency of a prisoner s journal patient laconic eloquent as if determined thoughts were set down in stolen moments David Kalstone in The New York Times Book Review The Will to Change must be read whole for its tough distrust of completion and for its cool declaratives which fix us with a stare more unsettling than the most hysterical questions It includes moments when poverty and heroism explode grammar with their own dignified unsyntactical demands The poems are about departures about the pain of breaking away from lovers and from an old sense of self They discover the point where loneliness and politics touch where the exercise of the radical courage takes its inevitable toll David Kalstone in The New York Times Book Review

The New Poetics of Climate Change Matthew Griffiths, 2017-07-27 Climate change is the greatest issue of our time and yet too often literature on the subject is considered only in the bracket of environmental writing divorced from culture society and politics The New Poetics of Climate Change argues instead that the emergence of global warming presents a fundamental challenge to the way we read and write poetry the way we think in the modern age In this important new book Matthew Griffiths demonstrates that Modernism s radical reinvigorations of literary form over the last century represent an engagement with key intellectual questions that we still need to address if we are to comprehend the scale and complexity of climate change Through an extended examination of Modernist poetry including the work of T S Eliot Wallace Stevens Basil Bunting and David Jones and their influence on present day poets including Jorie Graham Griffiths explores how Modernist modes can help us describe and engage with the terrifying dynamics of a warming world and offer a poetics of our climate
