## **Win The Happiness Game:**

*Win the Happiness Game* William G. Nickels, 1981-01-01      **The Happiness Game** Brad McAllister, 2017-08-21 This is not your typical self help book Most self help books today teach the idea that the reason you fail or succeed or are unhappy is only because of your own flaws and weaknesses They teach nothing of the opposition because they are unaware that opposition even exists even though it is everywhere and is actively working against anyone that wants to be happy or pursue any goal whatsoever In this book you will learn a few simple rules for how to identify the opposition and their tactics You will also learn how to defeat them and win The Happiness Game This book is straightforward concise and explained simply Humans naturally attempt to avoid pain and suffering and pursue pleasure and happiness They only fail to avoid pain and suffering when they are missing information or working with the wrong information With the wrong information they fall into traps that have been set for them by the opposition other people that want them to fail People caught in a trap are often unaware that they are even in a trap These traps lead them directly to pain and suffering Within the pages of this short book you will discover the correct information What you will learn in this book is that your success or failure your happiness or unhappiness is not so dependent on you but more dependent on those that are opposing you and their ability to succeed Their tactics have worked thus far because you haven't learned the rules In this book you will learn a few simple rules on how to identify the opposition and their tactics and how to defeat them You will learn that everyone has a role in the game whether they know it or not Some are your allies and some are your opposition You will learn how to identify every role This will give you an edge that you have never had before Within the pages of this short simple and practical book you will learn many secrets They are secrets that have been intentionally hidden from you because there are things that some people don't want you to know Just a few things you will learn Why people really give up on their dreams The traps and how to avoid them These traps are actively being set for you by your opposition Don't let the traps get you They will destroy your chance at happiness if you fall into them and don't get out How to get out of a trap if you are in one The real reason some people are depressed The Penalties How emotions like anger anxiety and fear are actually meters that tell you how you are playing and what you must do to win and rise to cheerfulness How happiness is not an entitlement it must be won There are rewards and penalties and there is no in between Why being happy has less to do with you and more to do with other people that are actively trying to stop you You will also learn how to deal with them and win Why some people oppose you and some help you Why your opposition wins and how you can easily defeat them How fear is your friend if you know how to use it but will destroy you if you don't The Three Rules of Fear The formula for happiness How the rules of The Happiness Game have been hidden from you including who did it and why Why governments schools and media are working to keep people unhappy and what you can personally do to be happy despite these seemingly powerful forces How to become a Player in The Happiness Game How The Happiness Game is so easy to win that the only way to make you lose is to hide the rules from you How life

should be fun the way it was when we were kids and how it can be again if you learn the rules to The Happiness Game

Sreenivas M.D.,2014-10-06 Happiness like health is our natural state of being Health is not a burden for us unlike its oppositedisease Since we are most comfortable in our natural state we seek happiness which is not a burden To be happy what is needed is to eliminate unhappiness which is an intruder It is similar to getting rid of a disease and health automatically makes its appearance Unhappiness is an intruder and it intrudes as a penalty we have to pay for transgressing the law of creation The law is that the creation is an integrated interrelated organic whole just like a human body Every cell works for the benefit of the whole body and the body does everything to protect and preserve each and every cell resulting in happy harmonious coexistence We transgress this law and create disharmony by feeling and acting as independent separate isolated entities from the rest of the creation Thus we are violating the law because of our ignorance Unhappiness is the penalty we pay for transgressing the law that the whole of the creation is an integrated interrelated organic whole The remedy To be happy we should live in conformity with the law of creation namely that the creation is an

integrated interrelated organic whole To live in conformity with the law we have to bring about a cognitive change in our thinking and the resulting changed thinking should be followed by a transformation in our lives The change requires us to become more and more inclusive by developing divine qualities like kindness compassion sharing etc and shunning the opposite qualities We are free either to conform or resist the law of creation The choice is ours In summary we are responsible for our happiness
