

A black and white photograph of a wooden ladder leaning against a large, smooth, rounded mound in a desolate landscape under a cloudy sky. The ladder is made of dark wood and has several rungs. The mound is light-colored and has a soft, rounded top. The sky is filled with scattered clouds, and the overall scene is quiet and contemplative.

systematical and historical analysis of the evolution of word and gesture art it gives extensive information on the anthropological biological and physiological influences and interactions in music and beyond The book gives a unique definition of the genuinely vocal and instrumental from their generative deep structure They derive from and are determined in their production by the duality of voice and hands and in terms of product as the tone or tonal on the one hand and the percussive that is noise plus rhythm on the other This book succeeds in bringing together perspectives from art and from natural and social sciences merging them to offer new explanations about the relationship between the vocal and instrumental and eventually about the origins of music arts and language It offers new perspectives on the intertwining between the vocal and the instrumental specifically in the context of the expressions of human languages At the same time this book aims at clarifying and explaining the role of words and gestures in different contexts such as society and communication education and arts
