The Spectre of Comparisons Benedict Anderson, 1998-09-17 The Spectre of Comparisons contains important theoretical and historical considerations about the nature of nationalism the prospects for the Left in the so called New World Disorder

The Spectre of Comparisons Benedict Richard O'Gorman Anderson, 1998 A controversial collection from the author of the celebrated *Imagined Communities* While Benedict Anderson is best known for his classic book on nationalism *Imagined Communities* many of his most telling and incisive interventions have been made in his essays Those collected in this new book span a range of subjects from Aquino's Philippines where the horses on the haciendas ate better than the stable hands to political assassination in contemporary Thailand where government posts have become so lucrative that to gain them candidates will kill their rivals In these writing the subtle imbrication of politics national imaginings bureaucracy modernization and its agents particularly print culture is brought out in all its complexity and richness The spectre of comparisons was a phrase used by the celebrated Filipino nationalist and novelist Jose Rizal 1861-96 whose work and fate in the national imagination are discussed in these pages In his finely wrought observations on Southeast Asian societies Anderson raises deep questions concerning this spectre about how for instance Manila is changed when it can no longer be seen through a comparison with European capitals and how more broadly nationalism is produced by the process of increasing global connection The Spectre of Comparisons is an indispensable resource for those interested in South East Asia But it also contains important theoretical and historical considerations about nationalism national literature and memory modernization and the prospects for the Left in what Anderson dubs The New World Disorder **The Spectre of Comparisons**, 2000

Empire of Analogies Kaori Nagai, 2006 *Empire of analogies* examines Kipling's representation of the Irish in his Indian stories while tracing his changing views of the Empire as the hegemony of British imperialism faltered towards the end of the nineteenth century It raises an important question regarding the place of Ireland in the Empire namely why do his Irish characters especially the eponymous hero of *Kim* have to be represented in India *Empire of analogies* seeks to answer this colonial riddle by placing it within the context of the imperial connections between British colonies It argues that Indo Irish

analogies and comparisons became especially important in representing imperial integrity in the late nineteenth century and as such became the very site where the image of the British Empire was contested book jacket *Fire on the Rim* William H. Thornton, 2002-07-23 *Fire on the Rim* combines an idealist's call for social justice cultural difference and environmental sustainability with a realist's recognition of the continuing need for balance of power security relations around the Pacific Rim Although this melding of idealist and realist elements is sure to meet opposition on the Right and Left alike the author's call for moral realism is a vital step toward an Asia policy fit for the twenty first century Visit our website for sample chapters
