The Literary Art of Stephen Crane Dorothy Morris Thompson,1959

Drawn from Life Stephen Crane,1997-07 During Stephen Crane s brief eight year writing career the giants who dominated American fiction were Mark Twain Henry James and William Dean Howells but the major new influence on the literature of the next half century would flow from the works of the adventurous young man who flashed and spent his genius in the 1890 s The Red Badge of Courage with which he first gained an international reputation remains his best known novel but his aptitude lay more surely in the short story The Open Boat The Bride Comes to Yellow Sky and The Blue Hotel have become classics of the genre almost inescapable in anthologies of American fiction and A Mystery of Heroism and The Upturned Face though reprinted slightly less frequently are also familiar to students at all levels A genuine understanding of Crane and of his complex artistry however calls for a broader knowledge of his attempts to forge a modern aesthetic Accordingly this collection joins six stories to those most commonly known the remarkable early experiments Killing His Bear A Day in the Country and The Pace of Youth the powerful though flawed The Monster and Death and the Child and the haunting anecdote An Illusion in Red and White An introductory essay locates the stories in the progress of Crane s career and offers penetrating critical commentary
