Still Memories:

Cheating Death Twice Michael Page, 2013-11-15 What exactly is the Human Mind Unique in this entire world yes but how exactly does it work what exactly is it made of Where exactly is it And the question the author poses is is your thinking mind actually what the Bible refers to as your spiritual soul And if it really is a spiritual soul can it really survive mortal death What force powers it Just flesh and blood or is there some other invisible divine force behind its incredible powers The author confesses to having been born into this life complete with memories of several previous lives It was after these previous lives that he also remembers being born literally remembering being squeezed out of his mother s womb And if that is not amazing enough he also truly believes that he can remember being conceived in his mother s womb A dramatic out of body experience has given the author confirmation that your id your inner being and your purest spiritual form can and will survive outside the body quite independently without any body mass The author was once a sailor on a Tall Sailing Ship and recalls drowning in the cold sea and later in another life he recalls serving as a Soldier in the First World War and so is able to theorise how when the time comes one can cheat Death

How Long the Night Anthony McMaryion, 2022-11-03 It was years later and they were still grieving mourning crying and weeping over the loss of their loved ones The hurt pain brokenness sorrow heartache and heartbreak they felt in the beginning never subsided and it never ended Unknowingly they had stepped into the process but never entered into the journey

The Hierarchy of Intelligences Valentin Matcas, 2015-09-03 You are a conscious intelligent living being yet you are more than an individual being since you are an entire living compound made of distinct living beings all forming you all contributing to your unique life and existence Because you are your trillions of living cells composing your body one after another And with each cell you are a zillion subcellular components forming you one molecule at a time and one cell near another designing or creating your life one fulfilment at a time and one moment of existence after another animating you from within in this manner from the smallest subcellular level Since this is who you are only at the physical objective level while all living beings generate sustain and coordinate continuously a multitude of intelligent modulations throughout the physical brain and entire body forming your entire cognition living intelligent impulses associated to your mind consciousness awareness and intelligence From the physical perspective of your body these are simple encoded impulses within your neurons and therefore within your entire mind and everybody has them capable to sustain entire inner cognitive instances forming together your cognitive system your entire mind in all its thoughts awareness feelings and reactions But then from an inner cognitive perspective all these physical impulses become alive making everything possible throughout your mind organism life and entire world in a living intelligent manner since these are your intelligences All your intelligences are aware conscious and certainly intelligent and through their own consciousness and intelligence they give you your entire mind in all its cognitive abilities becoming everything that you truly are More precisely your intelligences form your mind altogether since the human mind is their living world while your

intelligences perform the entire cognitive activity within just for you and for the entire organism And now their continuous existence is your life while their purpose becomes your meaning achievement learning and subsistence Since among all your intelligences you are the conscious intelligence yourself specialized in the coordination of the entire organism in the outside world while fulfilling its needs or while fulfilling your needs since it is the same Because your intelligences have their own specialized tasks and needs together forming not only your mind but your entire life in its entire existence Yet these are only your own intelligences the human intelligences while throughout this book we focus on all intelligences of the wider world including these This book studies all intelligences from living cognitive interconnective and existential perspectives throughout a comprehensive classification of everything alive and intelligent helping you understand yourself life intelligence consciousness the world and your conscious place meaning and fulfillment in life and in the world The Heart of The Seekers Baruti M.
