

1. The first step is to identify the problem or goal. This involves understanding the current situation and what needs to be achieved. It's important to be clear and specific about the objectives.

2. Next, you need to develop a plan. This involves breaking down the goal into smaller, manageable tasks and determining the resources and time needed to complete them.

Still Teaching Ourselves:

I Learn Better by Teaching Myself Agnes Leistico, 1997 Teaching, Learning, and Enacting of Self-Study Methodology Jason K. Ritter, Mieke Lunenberg, Kathleen Pithouse-Morgan, Anastasia P. Samaras, Eline Vanassche, 2018-03-15
This book offers a collection of original peer reviewed studies by scholars working to develop a knowledge base of teaching and facilitating self study research methodology Further it details and interconnects perspectives and experiences of new self study researchers and their facilitators in self study communities in different countries and across different continents Offering a broad range of perspectives and contexts it opens up possibilities for encouraging the collaborative and continuous growth of teaching and facilitating self study research within and beyond the field of teacher education The breadth of the scholarship presented expands scholarly discussions concerning designing representing and theorising self study research in response to pressing educational and social questions By documenting and understanding what teaching and learning self study looks like in different contexts and what factors might influence its enactment the book contributes to building a kaleidoscopic knowledge base of self study research Overall this book demonstrates the impact on participants professional learning and validates the authenticity and generative professional applications of self study methodology for and beyond teacher education providing implications and recommendations for practitioners on a global level *Resources in Education* ,1997 The Great Commission, Or, The Christian Church Constituted and Charged to Convey the Gospel to the World John Harris, 1890 *Serving Homeschooled Teens and Their Parents* Maureen T. Lerch, Janet Welch, 2004-05-30
Today more than a million students are being educated at home and that figure increases at a rate of 7 14% annually Homeschooling is a growing trend in our society and public librarians are being called upon with increasing frequency to serve the needs of homeschooled students So just what are the needs of the homeschooled teen and how can you and your library meet those needs A former young adult librarian and a homeschool parent have joined forces to create this insightful guide and answer that question After reviewing the developmental and social needs of teens the authors demonstrate how those needs may be met in the public library setting You ll find a wealth of ideas for adapting every facet of your library service for this growing population from developing a homeschool collection to expanding services and creating special programs You ll also find suggestions on how to market what your library has to offer to homeschoolers You may even discover some new ways to employ the talents and time of these students and their families Extensive resource lists conclude the volume they will help you better serve home educated teens and their parents *Lectures on the Science and Art of Education* Joseph Payne, 1880 **Teaching Yourself Social Theory** David Harris, 2002-12-13 Social theory is a very difficult subject to teach and it is one that students generally find hard to get to grips with Teaching Yourself Social Theory offers a highly original and comprehensive resource that will be welcomed by students and teachers alike Barry Smart University of Portsmouth I have no hesitation in recommending Harris text to students and teachers of social theory

Sociology This refreshing and accessible text demonstrates how social theory can be made into an intelligible discourse that touches upon key aspects of everyday life The abstraction and formalism of much contemporary social theory is criticized as unnecessarily scholastic for the beginner The author maintains that the main problems in studying the subject are not intrinsic to social theory but derive from how the subject is taught as a university discipline This lively book uses non specialist terms to introduce more complex themes and incorporates a Website with questions and reading guides to some of the classic works
