Stokers Mess:

Stokers' Mess Arne Skouen,1948 **Stokers' Mess; Tr. from the Norwegian by Joran Birkeland** Arne Skouen,1948

Seamanship George Strong Nares,1897 **Commander's order book for a Mediterranean battleship** sir Robert Keith Arbuthnot (bart.),1900 **A Hard Fought Ship** John A. Rodgaard,2024-06-30 Here is the exhaustive and exhilarating story of HMS Venomous one of sixty seven V W destroyers built at the end of the Great War that were to play a key role in the struggle to keep the sea lanes open in the Atlantic Home Waters and the Mediterranean during the following war Her story was perhaps the most memorable of all her class When war broke out she was to find herself in the front line as the German blitzkrieg swept across Europe in 1940 and the V Ws made high speed dashes across the Channel to bring troops and civilians back from Calais Boulogne and Dunkirk and prepared for the expected invasion Later that year she and her sister ships escorted the Atlantic convoys which supplied our Russian allies with the weapons to halt the German advance She returned to the Mediterranean and took part in Operation Pedestal to save Malta and as the allies prepared for the landings in North Africa she was ordered to escort the destroyer depot ship HMS Hecla to the invasion beaches When Hecla was torpedoed off the coast off Morocco Venomous fought the attacking U boat and rescued 500 survivors She escorted convoys along the coast of North Africa including the first through convoy from Gibraltar to Alexandria and she joined the invasion force to Sicily during Operation Husky In October 1943 she returned to Britain for a major refit at Falmouth when she was converted to an air target ship for training Barracuda torpedo bombers based at Douglas Isle of Man and then after being transferred to the east coast she was nearly lost in a hurricane before being sent to Kristiansand to accept the surrender of German naval forces Venomous and her sister ships were all scrapped after the War but her extraordinary career during which she fought without cessation is brought to life in this rousing and beautifully told ship biography a fitting memorial to the V Ws and the men who served in them I would rate this as being in the same class as The Cruel Sea for a picture of small ship life in World War Two The Naval Review A portrayal of life on a wartime destroyer with a depth and insight that is possible unequalled by any previously published work Warship Annual This book is outstanding for its detailed insight into the life on not just a single destroyer but by extension life at sea aboard and Royal Navy destroyer The Northern Mariner A Hard Fought Ship is a vivid portrait of a fighting vessel and the men who operated her Warships International Fleet Review Highly recommended to both naval historians and the general public Mariner s Mirror It is an exemplary ship biography where a detailed narrative of the destroyer s exploits are brought to life by a wealth of first hand accounts Navy News This book is a detailed and thrilling account of the life of a typical V W class destroyer Sea Breezes Stokers' Mess Arne Skouen,1948 Black Swan Class Sloops Les Brown,2019-11-30 An illustrated reference featuring the superbly drawn plans for these highly effective anti submarine ships The technical details of British warships were recorded in a set of plans produced by the builders on completion of every ship Known as the as fitted general arrangements these drawings

represented the exact appearance and fitting of the ship as it entered service Intended to provide a permanent reference for the Admiralty and the dockyards these plans were drawn with exquisite skill in multi colored inks and washes that represent the acme of the draftsman s art Today they form part of the collection of the National Maritime Museum at Greenwich which is using the latest scanning technology to make digital copies of the highest quality This book is one of a series based entirely on these drafts depicting famous warships in unprecedented detail complete sets in full color with many close ups and enlargements that make every aspect clear Captions point the reader to important features and an introduction covers the background to the design This volume is devoted to the sloops of the Black Swan class and its improved derivatives widely regarded as the Rolls Royce of Second World War convoy escorts Heavily armed and superbly equipped for their role they were among the most effective anti submarine ships of the battle in the Atlantic The design was gradually improved and this book uses plans of four selected ships to chart that development These comprise Black Swan as built Flamingo as modified later Starling the single most successful U boat hunter of the war as in 1943 and Amethyst as refitted after her clash with Chinese communists on the Yangtze in 1949

Admiralty, 1914 *Destroyers, Greyhounds of the Fleet* Peter Saxton, 2025-01-16 A remarkable read detailed hour to hour and immediate account of action a personal but modest story and the author and shipmates of all ranks come to life There are excellent accounts of training action stations gunnery tactics ad strategy officer and ratings relationships and leadership and all told in objective and authentic and readable language This is no gung ho account but sober and serious history with full grasp of tactics and strategy It shows how capital ships battleships battle cruisers heavy cruisers are vulnerable to U Boat and E Boat attack while little ships destroyers light cruisers and frigates are at sea constantly and protecting convoys The account is from personal experience of service on the strategic position of England s East Coast and North Sea with fear of German naval power E Boats and U Boats and the value early radar There are graphic accounts of sea conditions moving picture of a merchant captain and loss of ship plus vital importance of mine sweeping Readers might be shocked by German battleships in the English Channel and quotes from German sources There is a powerful account of the naval role at action stations of the Allies Axis war effort and encounters with top commanders naval and military and Mediterranean campaign of Admiral Cunningham and invasion of Sicily and Italy and Normandy D Day preparation *British Fiji Class Cruisers and their*

Derivatives Conrad Waters, 2024-05-30 A follow up to the author's highly regarded history of British Town class cruisers this book takes the same approach combining coverage of the development design details and career highlights of the original class as well as the Uganda Minotaur and Tiger designs that were derived from them Often called the Colony class they were an attempt to incorporate the characteristics of the preceding Town class within the reduced 8 000 ton limit agreed under the 1936 London Treaty In general layout they resembled the earlier class but adopted upright rather than raked funnels and masts The use of a flat transom stern conferred both hydrodynamic and internal space advantages Not surprisingly they turned out to be very cramped ships which struggled to accommodate all the wartime additions of extra electronics and light AA guns as well as the increased crew needed to man them Many of the later modifications to existing ships and alterations to the succeeding designs were attempts to alleviate these issues most visibly the reduction of the main armament from four to three turrets Nevertheless they were available in significant numbers and gave sterling service across all theaters of the naval war In this major study Conrad Waters makes extensive use of archive material to provide a technical evaluation of the Fiji class design and its subsequent performance He outlines the class's origins in the context of inter war cruiser policy explains the design and construction process and describes the characteristics of the resulting ships and how these were adapted in the light of wartime developments An overview of service focuses on major engagements assessing the extent to which the class met its designers expectations and detailing the consequences of action damage Later chapters continue the story into the Cold War era examining the various post war modernization programs and concluding with the radical redesign of the Tiger class that produced the Royal Navy's last conventional cruisers Heavily illustrated with contemporary photographs original plans and drawings by Dave Baker John Jordan and George Richardson *British Fiji Class Cruisers* provides a definitive reference to one of the Royal Navy's most important Second World War warship designs The Electrician ,1900 **Journal of Gas Lighting and Water Supply** ,1902
