[Two Lives of Charlemagne: The Biography, History and Legend of King Charlemagne, Ruler of the Frankish Empire](#) Einhard, Monk of St Gall, Arthur James Grant, 2018-07-12 This splendid edition contains both ancient biographies of Charles the Great by Einhard and the Monk of St Gall edited translated and introduced by Arthur James Grant Charlemagne is often termed the father of modern Europe in

that he implemented the earliest foundations of Germany France Holland and Belgium Demonstrating great talents in both war and peace Charles the Great was able to unite much of Europe to an extent unseen since the time of the Roman Empire Although Charlemagne only reigned for fourteen years his actions while on the Frankish throne were of far ranging consequence His wars against the Saxons his expedition into Muslim Spain and his strengthening of relations with the Papacy of Rome helped solidify Christianity within the European continent Although his reign was violent it ushered in civilization to Europe via unification of its peoples Charlemagne Derek Wilson,2007-12-18 An incisive and absorbing biography of the legendary emperor who bridged ancient and modern Europe and singlehandedly altered the course of Western history Charlemagne was an extraordinary figure an ingenious military strategist a wise but ruthless leader a cunning politician and a devout believer who ensured the survival of Christianity in the West He also believed himself above the rules of the church siring bastards across Europe and coldly ordering the execution of 4 500 prisoners Derek Wilson shows how this complicated fascinating man married the military might of his army to the spiritual force of the Church in Rome thereby forging Western Christendom This is a remarkable portrait of Charlemagne and of the intricate political religious and cultural world he dominated **The History of Charlemagne** George Payne Rainsford James,1860
