The Magnasphere:

The Magnasphere James R. Medicraft, 2001-02-01 By the year 2048 the Christian Coalition in Washington has evolved into a World Government A 1 000 year reign of Christ has begun It is a reign of terror Thinking minds and intellectuals are feared by the masses and hated by their God those who believe in the sciences and humanity All non Christians are being slaughtered A few remaining Scientists who remain in hiding are the last survivors of humanity One of these Dr Damian Van Wells gives his faith not to the God of Christians but instead to Structural Knowledge Structural knowledge is the foundation of all things It binds together all reality solid or in thought Knowledge this powerful neither feels emotion nor seeks justification or value toward even its very self It is perfection it is the power of creation In their underground laboratory these scientists have worked for several years on the Daystar Project Their goal with this knowledge is to create the Magnasphere through which Damian hopes to reach back into time and change the past while change is still possible Damian will not submit to the will of Christians or their God By changing the past Damian will rewrite history erasing all religions Mankind means to not only defy the living God of Christianity but to annihilate it Intellect will crush anything that now stands in its way Jehovah s Church warned that the Antichrist would come and Armageddon too Damian is coming and The Magnasphere too Jehovah s Church possesses the power of destruction the Antichrist possesses the power of enlightenment Damian knows which should be feared the most What are we really That profoundly is the ultimate frontier for mankind to cross
