Marco Casella

The Misalliance:

Classics in Psychoanalytic Technique Robert Langs, 1977-07-07 Dr Robert Langs collects the most important and creative work ever published on how to do psychotherapy and psychoanalysis in *Classics in Psychoanalytic Technique* Practitioners should base their studies upon This revised edition builds upon his previous volume of works *The Therapeutic Interaction* as well as extended the critiques that were included in the earlier book The book is grouped into subject matters and then arranged chronologically within each category so as to provide a sense of growth in psychoanalytic thinking Beginning with Freud's intrapsychic foundation and oedipal emphasis and spanning all the way to recent contributions Included are the works of Winnicott the Kleinians and Greenson just to name a few Dr Langs concludes the volume with a paper of his own addressing the question of the whether the writings constitute a solid foundation or a facade In any field growth and change are important yet one can never forget their humble beginnings Which is why *Classics in Psychoanalytic Technique* is a tribute to those who struggled to advance the field of psychoanalysis

The Misalliance Anita Brookner, 1988 [A Misalliance](#) Anita Brookner, 2012-08-01 After twenty years of marriage Blanche Vernon is alone abandoned by her husband Bertie for a childishly demanding computer expert named Mousie While Blanche finds this turn of events baffling she feels that Bertie must have left her because of her overly sensible demeanor Yet many of their mutual friends disagree In fact Blanche has come to be regarded as undeniably eccentric making elliptical remarks that no one knows how to read and chatting at great length about characters in fiction She resolutely fills her unwanted hours with activities maintaining her excellent appearance drinking increasingly more wine and in an attempt to turn her energy to good works becoming severely enmeshed in the life of a disordered young family

[Misalliance](#) George Bernard Shaw, 2025-09-16T21:44:23Z Hypatia daughter of the newly wealthy underwear manufacturer John Tarleton is at home with her parents and older brother entertaining her fianc Bentley and his father Lord Summerhill a former governor of a British colonial territory Their afternoon is interrupted twice first when an airplane crashes into their roof carrying Joey Percival and Lina Szczepanowska a handsome friend of Bentley's and a circus daredevil and acrobat and then by a disaffected store clerk who intends to assassinate John Tarleton Over the course of the summer afternoon eight proposals of marriage are offered and discussed Which of them might make a good match and which a misalliance *Misalliance* continues the work of George Bernard Shaw in using satire to explore the nature of marriage the liberation of women and the philosophy of familial relationships It was first performed in London in 1910 and has been run on Broadway and revived multiple times since This book is part of the Standard Ebooks project which produces free public domain ebooks

[The Therapeutic Alliance](#) William W. Meissner, 1996-01-01 One point on which the various helping professions agree is that the crucial factor in the success of therapy is the therapeutic alliance the collaborative relationship a therapist forms with a patient This work examines the prevailing ideas about the therapeutic alliance

The Bipersonal Field Robert Langs, 1976 This volume introduces a new

era for the techniques of psychotherapy and psychoanalysis The bipersonal field and the therapist at the other and views them as interacting along an interface within the frame of the field Dr Langs meticulously examines the contributions of both participants investigating their influence on the therapeutic potential of the field and on the nature and meaning of their own interaction This book is based on the transcription of five detailed case presentations made to Dr Langs in a seminar on the technique of psychoanalytic psychotherapy In his running commentary Dr Langs finds ample opportunity to demonstrate the pathology placed into the field by the participants as well as their respective conscious and unconscious curative endeavors He brings many new and important perspectives to the therapeutic process Among his most original ideas are the following The vast clinic importance of the management of the ground rules and boundaries of the bipersonal field The appropriate and pathological aspects of the therapist s containing functions his metabolism of the patient s projective identifications These are illustrated clinically as are misuses of the patient as an inappropriate container for the therapist s pathological inner contents The concepts of therapeutic misalliances and bastions These refer to unconscious collusion by the patient and therapist designed for pathological gratification and defense and for temporary symptom relief without insight or adaptive inner change Temporarily successful efforts of this kind are termed misalliance cures while framework cures refers to their achievement through an alteration in the ground rules and boundaries The importance of unconscious perception along with unconscious fantasy as the key intrapsychic factors in the therapeutic and in the patient s psychopathology and the role of projective and introjective identification as the central interactional processes within the bipersonal field The distinction between transference and non transference reactions within the patient and its crucial technical implications The concept of interactional syndromes and resistances These are symptoms and defenses in the patient to which the therapist has significantly contributed They represent the pathology of the bipersonal field and can only be modified through rectification of the therapist s contributions and interpretation of their unconscious meanings for the patient The utilization of dreams in psychotherapy including the function of dreams as a means of communicating both unconscious fantasies and unconscious perceptions A special group of dreams ins identified as designed unconsciously to cure the pathology of the bipersonal field The patient s introjective identification of the therapist s pathological projective identifications which are generated by errors in intervening and mismanagements of the frame Based on his introjections the patient unconsciously attempts to cure the sick therapist within himself and thereby both the therapist and himself In this connection Dr Langs describes the patients and other unconscious therapeutic endeavors on his behalf In all this is a landmark book that opens many new avenues for understanding the therapeutic interaction and for redefining the basic techniques needed for the insightful resolution of the patient s psychopathology Dr Langs s work is founded on a distinctive psychoanalytic methodology and on repeated use of the validating process He works predictively and adheres closely to the material from the patient Never before has a psychoanalyst so exquisitely demonstrated the patient s unconscious perceptiveness and astonishing creativity Here is an

opportunity to become involved in a clinical study that will prove a most memorable learning experience Publisher

Gaslighting, the Double Whammy, Interrogation and Other Methods of Covert Control in Psychotherapy and Analysis

Theodore L. Dorpat, 1996-10-28 In treatment the psychotherapist is in a position of power Often this power is unintentionally abused While trying to embody a compassionate concern for patients therapists use accepted techniques that can inadvertently lead to control indoctrination and therapeutic failure Contrary to the stated tradition and values of psychotherapy they subtly coerce patients rather than respect and genuinely help them The more gross kinds of patient abuse deliberate ones such as sexual and financial exploitation are expressly forbidden by professional organizations However there are no regulations discouraging the more covert forms of manipulation which are not even considered exploitative by many clinicians In this book noted psychiatrist Theo L Dorpat strongly disagrees Using a contemporary interactional perspective Dorpat demonstrates the destructive potential of manipulation and indoctrination in treatment This book is divided into three parts Part I explores the various ways power can be abused Part II examines eleven treatment cases in which covert manipulation and control either caused analytic failure or severely impaired the treatment process Cases discussed include the analyses of Dora and the Wolf Man by Freud the two analyses of Mr Z by Kohut as well as other published and unpublished treatments An interactional perspective is used to examine the harmful short and long term effects of using indoctrination methods as well as to unravel conscious and unconscious communications between therapists and patients that can contribute to manipulations Part III shows readers how to work using a non directive egalitarian approach in both psychoanalytic psychotherapy and psychoanalysis

Hidden Conversations David Livingstone Smith, 2018-05-08 Hidden Conversations introduces Robert Langs radical reinterpretation of psychoanalysis by presenting and expanding his ideas in new and accessible ways It is the first clear account of the theories underlying Langs approach placing them within the context of the history of psychoanalysis and showing for example that Freud nearly discovered the communicative approach in the late 1890s and that in the 1930s Ferenczi also anticipated the method David Livingstone Smith illustrates this communicative approach with a wealth of practical detail and clinical examples including verbatim accounts of communicative psychoanalytical sessions with a commentary on the unconscious processes underlying them
