The Pious Agent:

The Pious Agent John Braine, 1975 From Plato to Wittgenstein G.E.M. Anscombe, 2011-10-13 In 2005 St Andrews Studies published a volume of essays by Anscombe entitled Human Life Action and Ethics followed in 2008 by a second with the title Faith in a Hard Ground Both books were highly praised This third volume brings essays on the thought of historical philosophers in which Anscombe engages directly with their ideas and arguments Many are published here for the first time and the collection provides further testimony to Anscombe's insight and intellectual imagination The Butterfly, 1893

The Illustrated American, 1893 **Musical Agency and the Social Listener** Cora S. Palfy, 2021-10-21 Music as a narrative drama is an intriguing idea which has captured explicit music theoretical attention since the nineteenth century Investigations into narrative characters or personae has evolved into a sub field musical agency In this book Palfy contends that music has the potential to engage us in social processes and that those processes can be experienced as a social interaction with a musical agent She explores the overlap between the psychological processes in which we participate in order to understand and engage with people and those we engage in when we listen to music Thinking of musical agency as a form of social process is quite different from existing theoretical frameworks for agency It implies that we come to musical analysis by way of intuition that our ideas are already partially formed based on our experience of the piece and what it makes us feel or how it makes us sense it as any other when we choose to analyze and interpret it Palfy's focus on social processes is a very effective way to pinpoint when and why it is that our attention is captured and engaged by musical agents

Dalmina Hamilton Delaine, 1889 **Plato's Dialogues of Definition** Justin C. Clark, 2022-07-21 In each of Plato's dialogues of definition Euthyphro Laches Meno Charmides Lysis Republic I Hippias Major Socrates motivates philosophical discussion by posing a question of the form What is F-ness Yet these dialogues are notorious for coming up empty Socrates interlocutors repeatedly fail to deliver satisfactory answers Thus the dialogues of definition are often considered negative empty of any positive philosophical content Justin C. Clark resists the negative reading arguing that the dialogues of definition contain positive Socratic answers In order to see the positive theory however one must recognize what Clark calls the dual function of the What is F-ness question Socrates is not looking for a single type of answer Rather Socrates is looking

for two distinct types of answers The What is F ness question serves as a springboard for two types of investigation conceptual and causal The key to understanding any of the dialogues of definition therefore is to decipher between them Clark offers a way to do just that at once resolving interpretive issues in Socratic philosophy providing systematic interpretations of the negative endings and generating important new readings of the Charmides and Lysis whilst casting further doubt on the authenticity of the Hippias Major
