Once Upon a Time in a Dark and Scary Book K. Shryock Hood, 2018-05-25 Contemporary American horror literature for children and young adults has two bold messages for readers adults are untrustworthy unreliable and often dangerous and the monster always wins as it must if there is to be a sequel Examining the young adult horror series and the religious horror series for children Left Behind The Kids for the first time and tracing the unstoppable monster to Seuss s Cat in the Hat this book sheds new light on the problematic message produced by the combination of marketing and books for contemporary American young readers

The Point Alma Venus Manuscripts Robinson Jeffers, 2022-01-18 The years 1921 to 1927 were the most productive of Robinson Jeffers s career During this period he wrote not only many of his most well known lyric poems but also Tamar The Tower Beyond Tragedy Roan Stallion and The Women at Point Sur the long poems that first established his reputation as a major American poet Including an introduction chronology and critical afterword the Point Alma Venus manuscripts presented here gather Jeffers s four unfinished but substantial preliminary attempts at what became The Women at Point Sur which Jeffers believed was the most inclusive and poetically the most intense of his narrative poems The Point Alma Venus fragments and versions shed important light on the composition and themes of The Women at Point Sur Further they likely predate other key work from this crucial period making them a necessary context for those who wish to clarify Jeffers s poetic development and to reinterpret his practice of narrative poetry Ultimately they call on general and scholarly readers alike to reconsider Jeffers s place in the canon of modern American poetry

Education in Popular Culture Roy Fisher, Ann Harris, Christine Jarvis, 2008-05-06 Education in Popular Culture explores what makes schools colleges teachers and students an enduring focus for a wide range of contemporary media What is it about the school experience that makes us wish to relive it again and again The book provides an overview of education as it is represented in popular culture together with a framework through which educators can interpret these representations in relation to their own professional values and development The analyses are contextualised within contemporary historical and ideological frameworks and make connections between popular representations and professional and political discourses about education Through its examination of film television popular lyrics and fiction this book tackles educational themes that recur in popular culture and demonstrates how they intersect with debates concerning teacher performance the curriculum and young people s behaviour and morality Chapters explore how experiences of education are both reflected and constructed in ways that sometimes reinforce official and professional educational perspectives and sometimes resist and oppose them Education in Popular Culture will stimulate critical reflection on the popular myths and professional discourses that surround

teachers and teaching It will serve to deepen analyses of teaching and learning and their associated institutional and societal contexts in a creative and challenging way

Cinematic Cryptonymies Ofer Eliaz, 2018-11-19 How postwar film represents absent bodies via the cinematic practices of audiovisual erasure by key filmmakers Following World War II the world had to confront the unmournable specters of those who had been erased socially and historically Cinematic Cryptonymies The Absent Body in Postwar Film explores how cinema addressed these missing bodies through an in depth analysis of key filmmakers from the immediate postwar moment through the present Ofer Eliaz provides a cinematic history as well as a theoretical framework rooted in psychoanalysis that allows the reader to see and understand the absence and erasure of bodies in film as a response to historical trauma Drawing on a psychoanalytic technique focused on what one leaves unspoken Cinematic Cryptonymies investigates a diverse range of postwar film The first chapter examines how Georges Franju deployed Paris as a city that hides the horrors of its past here the vanished bodies of the victims of the Holocaust behind its facade Eliaz then looks at intergenerational haunting in the early horror films of Mario Bava in which unacknowledged violence and loss is passed down across generations during the time of Italy's economic miracle The unique use of montage in the late films of Jean Luc Godard is the focus of the third chapter through which the viewer only receives a fragmented and partial image of struggle an attempt to address the failure of cinema to bear witness to the horrors of the wars and mass killings of the 1990s Eliaz ends in the 2000s by examining the transnational films of Naomi Uman whose experimental films engage the violence and loss experienced in different forms of border crossings including national and social borders Centered on the question of how one can mourn losses that are so traumatic they become unspeakable Cinematic Cryptonymies is an important contribution to conversations on postwar film trauma and the intersection of psychoanalysis and the humanities Scholars interested in postwar film and history trauma and war or psychoanalytic theory will all find this volume of interest

Hollywood's Others Katherine Fusco, 2025-09-02 We tend to think about movie stars as either glamorous or relatable But in the 1920s and 1930s when the Hollywood star system was taking shape a number of unusual stars appeared on the silver screen representing groups from which the American mainstream typically sought to avert its eyes What did it mean for a white entertainment columnist to empathize with an ambiguously gendered Black child star Or for boys to idolize Lon Chaney famous for portraying characters with disabilities Hollywood's Others explores the affective ties between white non disabled audiences and the fascinatingly different stars with whom they identified but only up to a point Katherine Fusco argues that stardom in this era at once offered ways for viewers to connect across group boundaries while also policing the limits of empathy Examining fan magazines alongside film performances she traces the intense audience attachment to atypical celebrities and the ways the film industry sought to manage it Fusco considers Shirley Temple's career in light of child labor laws and changing notions of

childhood shows how white viewers responded to Black music in depictions of the antebellum South and analyzes the gender politics of conspiracy theories around celebrity suicides Shedding light on marginalized stardoms and the anxieties they provoked Hollywood's Others challenges common notions about film's capacity to build empathy

Body and Face in Chinese Visual Culture Hung Wu, Katherine R. Tsang, 2020-03-17

Traditionally the Chinese body was approached as a totality and explained by sweeping comparisons of the differences that distinguished Chinese examples from their Western counterparts Recently scholars have argued that we must look at particular examples of Chinese images of the body and explore their intrinsic conceptual complexity and historical specificity The twelve contributors to this volume adopt a middle position They agree that Chinese images are conditioned by indigenous traditions and dynamics of social interaction but they seek to explain a general Chinese body and face by charting multiple specific bodies and faces All of the chapters are historical case studies and investigate particular images such as Han dynasty tomb figurines Buddhist texts and illustrations pictures of deprivation illness deformity and ghosts clothing formal portraiture and modern photographs and films From the diversity of art forms and historical periods studied there emerges a more complex picture of ways that the visual culture of the body and face in China has served to depict the living memorialize the dead and present the unrepresentable in art
