The Transformist Illusion Douglas Dewar,2005      **The Transformist Illusion** Douglas DEWAR (F.Z.S.),1957      The Transformist Illusion, by Douglas Dewar ,1965      Science and the Myth of Progress Marhdad Zarandi,2003-07-30 In the wake of the fall Frithjof Schuon Sacred and profane science Ren Gu non Traditional cosmology and the modern world Titus Burckhardt Religion and science Lord Northbourne Contemporary man between the rim and the axis Seyyed Hossein Nasr Christianity and the religious thought of C G Jung Philip Sherrard On earth as it is in heaven James S Cutsinger The nature and extent of criticism of evolutionary theory Osman Bakar Knowledge and knowledge D M Matheson Knowledge and its counterfeits Gai Eaton Ignorance Wendell Berry The plague of scientistic belief Wolfgang Smith Scientism the bedrock of the modern worldview Huston Smith Life as non historical reality Giuseppe Sermonti Man creation and the fossil record Michael Robert Negus The act of creation bridging transcendence and immanence William A Dembski      **Mirror of the Intellect** Titus Burckhardt,1987-10-15 Titus Burckhardt was Swiss and an eminent member of the traditionalist school He is perhaps best known to the English speaking public as the author of the following books Sacred Art in East and West Siena City of the Virgin Moorish Culture in Spain and Alchemy Science of the Cosmos Science of the Soul A generation ago he won much acclaim for producing and publishing the first successful full scale facsimiles of the Book of Kells and other ancient manuscripts In more recent years he acted as a specialist advisor to UNESCO with particular reference to the preservation of the unique architectural heritage of Fez which was then in danger The present volume is a complete collection of Burckhardt s essays originally published in a variety of German and French journals They range from modern science in its various forms through Christianity and Islam to symbolism and mythology It is a rich collection Burckhardt blends an accessible style with a penetrating insight He interprets the metaphysical cosmological and symbolic dimensions of these sacred traditions from the perspective of timeless spiritual wisdom      **The Phenomenon of Teilhard** David H. Lane,1996 New Age writer of the popular Aquarian Conspiracy Marilyn Ferguson observed that many of the leading lights of the New Age movement claim Teilhard as one of the most influential persons in their lives Other influences acknowledged include C G Jung Aldous Huxley Swami Muktananda Thomas Merton Werner Erhard and Maharishi Yogi Indeed of the 185 New Age leaders surveyed Teilhard was the most frequently mentioned of any person who had most influenced their thinking If this is the case then if we are to understand the New Age movement properly it behooves us to take a careful and critical look at Teilhard de Chardin David Lane has done precisely this in a clear well documented and penetrating way In this crucial book David Lane lays bare the philosophical theological and scientific failures of Teilhard s New Age enterprise In a highly documented and insightful scrutiny of Teilhard s cosmic evolution Lane unveils the apostate Christian roots of one of the most important forerunners of the New Age movement This is one of the most significant and serious treatments of the modern roots of the New Age in print      *Shakespeare's Window Into the Soul* Martin Lings,2006-06-27 Shakespeare s plays argues Lings

concern far more than the workings of the human psyche they are sacred visionary works that through the use of esoteric symbol and form mirror the passage the soul must make to reach its final sacred union with the divine **The Father Confusors** Renford,2010-09-15 The author has published many books articles and essays that take a metaphysical approach to interpreting ancient texts such as the Vedas the Dhampravada the Tao Teh Ching and the Bible He follows no theological dogma nor adopts any philosophical school He teaches in the Renford books and in the Institute of Applied Metaphysics that taking a single approach to exclusion of any other will not produce an accurate picture Some text must be taken metaphysically some as historical and some as physical events in which the witness had little or no point of reference comparable to ours In any other approach one will be interpreting based on a fixed religious tradition or a philosophical bias We have seen many variations on the idea that alien intervention has taken place in our ancient history but this author has gone into greater depth on the difference between Universal Being and the warrior gods depicted in the ancient texts

*The Essential Titus Burckhardt* Titus Burckhardt,2003-09-06 An introduction to the thought of one of the greatest perennialist authors of the twentieth century **The Underlying Religion** Martin Lings,Clinton Minnaar,2007-07-18 This is an anthology of 25 essays by the leading exponents of the perennialist school of comparative religious thought It aims to be the most accessible introduction yet to the perspective of the Perennial Philosophy **Cosmos & Transcendence** Wolfgang Smith,1984 With elegance and clarity Wolfgang Smith leads the reader step by step to the realization that the specifically modern world is based intellectually not indeed upon scientific facts but ultimately on nothing more substantial than a syndrome of Promethean myths And this opening enables him to recover and reaffirm the deep metaphysical insights that have come down to us through the teachings of Christianity having broken the grip of scientific presuppositions the author succeeds in bringing to view universal truths which had long been obscured **The Sword of Gnosis** Jacob Needleman,1986 **The Secret of Shakespeare** Martin Lings,1984 Symposium on Creation II Donald Wesley Patten,1970 **God and the Cosmos** Theodore Graebner,1943 **Concepts in Creationism** E. H. Andrews,Werner Gitt,William J Ouweneel,1986 Creationism and indeed Christianity place science history and the humanities side by side but they set theology above them all as the unifying concept in which all branches of human knowledge find their source and significance The sovereign God is equally the Lord of nature of history and of all human achievement Seen in this light the collection in one volume of studies on biblical issues psychology history anthropology and biology appears natural and proper especially as each author seeks to relate his field of study to the higher level at which the terms creation and Creator have significance Originally given as papers at the first European Creationist Congress they epitomize creationism as a holistic biblical view of being in which the diverse fields of human endeavour can be seen as part of a greater whole Science & Technology in the Islamic World ,1988 *The Velikovsky Inheritance* David Marriott,2006 Upon this Rock Valentine Long,1982 **Jewish Faith in Our Time** B. Horovitz,1967
