Wim Crouwel:

Dutch Type Jan Middendorp, 2004 Overzicht van vooral de 20e eeuwse Nederlandse typografie Jan Van Toorn Rick Poyner, 2008 Jan van Toorn is one of the most significant and influential Dutch graphic designers to have emerged since the early 1960s His designs persistently call attention to their status as visual contrivances obliging the viewer to make an effort to process their complexities Van Toorn wants the public to measure the motives of both the client and the designer who mediates the client's message against their own experiences of the world He hoped in this way to stimulate a more active and skeptical view of art communication media ownership and society Projects such as Van Toorn's posters and catalogues for the Van Abbemuseum in Eindhoven and his long running series of calendars for the printing firm Mart Spruijt are powerful demonstrations of graphic design used as a means of commentary and as a tool of critique Later as director of the Jan van Eyck Academy Van Toorn drew together all the strands of his critical practice into a multi levelled educational initiative that urged designers to think harder about design's role in shaping contemporary reality *Yearbook Dutch Design 05* Aad Krol, Timo de Rijk, 2005

Graphic Design Discourse Henry Hongmin Kim, 2018-03-20 If the aim of graphic design is to communicate meaning clearly there's an irony that the field itself has struggled between two contradictory opposites rote design resulting from a rigorous fixed set of rules and eccentric design that expresses the hand of the artist but fails to communicate with its audience But what if designers focused on process and critical analysis over visual outcome Through a carefully selected collection of more than seventy five seminal texts spanning centuries and bridging the disciplines of art architecture design history philosophy and cultural theory *Graphic Design Discourse Evolving Theories Ideologies and Processes of Visual Communication* establishes a new paradigm for graphic design methodologies for the twenty first century This illuminating anthology is essential reading for practicing designers educators and students trying to understand how to design in a singular expressive way without forgoing clear and concise visual communication

Wim Crouwel in His Own Words Wilm Hendrik Crouwel, *In Other Words*, 2010 Wim Crouwel in his own words presents a selection of lectures and articles delivered by Wim Crouwel between 1974 and 2006 The texts by Crouwel who has lectured all over the world are highly interesting because they document a lengthy and important career as a designer professor and museum director that spans from the early postwar years until the first decade of the 21st century This material is inspiring because it reflects a highly committed professional a pragmatist critical observer and on some crucial points even a utopian The outgoing diplomatic personality of Crouwel who has always dressed immaculately is shown in a small portfolio of portraits made by different photographers over a period of almost sixty five
