

Winding Stair

Edward George King

Winding Stair:

The Four Books of Architecture Andrea Palladio, 1508-1580 was one of the most celebrated architects of the Renaissance so important that the term Palladian has been applied to a particular style of architecture which adheres to classical concepts. The wide spread of Palladianism was due partly to the private and public buildings he constructed in Italy the designs of which were copied throughout Europe. But of even greater consequence was his remarkable magnum opus *I Quattro Libri dell'Architettura* translated into every major Western European language in the two centuries following its publication in 1570 it has been one of the most influential books in the history of architecture. The *Four Books of Architecture* offers a compendium of Palladio's art and of the ancient Roman structures which inspired him. The First Book is devoted to building materials and techniques and the five orders of architecture: Tuscan, Doric, Ionic, Corinthian and Composite. Palladio indicates the characteristic features of each order and supplies illustrations of various architectural details. The Second Book deals with private houses and mansions almost all of Palladio's own design. Shown and described are many of his villas in and near Venice and Vicenza including the famous Villa Capra or The Rotunda, the Thiene Palace and the Valmarana Palace. Each plate gives a front view drawing of the building and the general floor plan. The Third Book is concerned with streets, bridges, piazzas and basilicas most of which are of ancient Roman origin. In the Fourth Book Palladio reproduces the designs of a number of ancient Roman temples. Plates 51 to 60 are plans and architectural sketches of the Pantheon. In all the text is illustrated by over 200 magnificently engraved plates showing edifices either of Palladio's own design or reconstructed in these drawings by him from classical ruins and contemporary accounts. All the original plates are reproduced in this new one volume edition in full size and in clear sharp detail. This is a republication of the Isaac Ware English edition of 1738. Faithful and accurate in the translation and in its reproduction of the exquisite original engravings it has long been a rare sought after work. This edition makes *The Four Books* available for the first time in more than 200 years to the English speaking public.

Biblical Echo and Allusion in the Poetry of W.B. Yeats Dwight Hilliard Purdy, 1994. This book treats the poetics of biblical allusion in the lyric poetry of William Butler Yeats and the ways in which the King James Bible became for Yeats a model for poetry as a communal voice shaping a culture. The introduction analyzes the critical history of what Eleanor Cook has termed the poetics of allusion emphasizing the work of the Italian rhetorician Gian Biagio Conte and the American critic and poet John Hollander. The major topics considered here are allusions as the intersections of texts as figures of speech and as structural signifiers, the centrality of the reader in the study of allusion, the quality of allusions, their placement and varying degrees of clarity and the centrality of the study of allusion to cultural criticism. The first chapter is concerned with the development of the Bible as a model for secular poetry from the late eighteenth century to Yeats surveying Bishop Lowth, Blake, Coleridge, Wordsworth, Shelley and Matthew Arnold as well as Yeats's references in his prose works to the Bible as a model for art and the artist and his desire to restore the Bible as sacred text yet write his own.

Bible Chapters 2 through 5 take up in detail the poetics of biblical allusion and echo in the poems Chapter 2 treats the poetry of the nineties here Yeats usually engages the Bible as an antagonist subverting it for the sake of a Celtic consciousness denying its exclusive claim to spiritual truth But many biblical echoes show Yeats's dependence upon the Bible as a guide to poetic language Chapter 3 concerns the poetry from *In the Seven Worlds* to *The Wild Swans at Coole* Yeats looks on Scripture with an ironic eye often replacing it with what he calls haughtier texts the parables prayers visions and private revelations that mirror biblical models and make biblical texts into warrants for his own theory of rebirth Chapter 4 is a close reading of biblical intertextuality in seven poems *The Second Coming* *Sailing to Byzantium* *Meditations in Time of Civil War* *Nineteen Hundred and Nineteen* *Prayer for My Son* *Dialogue of Self and Soul* and *Vacillation* In these major poems Yeats displays his antitheticity as Hazard Adams calls it putting into dramatic tension biblical texts and his own heterodox ideas about birth death and resurrection Chapter 5 examines the poetry after *Vacillation* where Yeats gives biblical texts often text used before a new sensual gloss but also admits the limits of a high talk derived from scriptural language Chapter 6 places Yeats in the broad context of biblical intertextuality working backward from modernism to Romanticism First the study contrasts Yeats with two of his contemporaries D H Lawrence and T S Eliot for whom the Bible always asserts its religious authority in the Victorian tradition of Arnold Clough Browning and Tennyson The study concludes by comparing Yeats to Wordsworth and Shelley Although Yeats is deeply indebted to them his attitude is distinct from theirs even when rejecting the Bible Wordsworth and Shelley accept a dogmatic view of it while Yeats escapes dogmatism
