Window Of Dreams:

Victorian Glassworlds Isobel Armstrong, 2008-04-24 Isobel Armstrong's startlingly original and beautifully illustrated book tells the stories that spring from the mass production of glass in nineteenth century England. Moving across technology, industry, local history, architecture, literature, print, culture, the visual arts, optics, and philosophy, it will transform our understanding of the Victorian period. The mass production of glass in the nineteenth century transformed an ancient material into a modern one at the same time transforming the environment and the nineteenth century imagination. It created a new glass culture hitherto inconceivable. Glass culture constituted Victorian modernity. It was made from infinite variations of the prefabricated glass panel and the lens. The mirror and the window became its formative elements, both the texts and constituents of glass culture. The glassworlds of the century are heterogeneous. They manifest themselves in the technologies of the factory, furnace, in the myths of Cinderella, and her glass slipper, circulated in print media, in the ideologies of the conservatory as building type, in the fantasia of the shopfront, in the production of chandeliers in the Crystal Palace, and the lens made images of the magic lantern and microscope. But they were nevertheless governed by two inescapable conditions. First, to look through glass was to look through the residues of the breath of an unknown artisan, because glass was mass produced by incorporating glassblowing into the division of labour. Second, literally a new medium, glass brought the ambiguity of transparency and the problems of mediation into the everyday. It intervened between seer and seen, incorporating a modern philosophical problem into bodily experience. Thus, for poets and novelists, glass took on material and ontological, political and aesthetic meanings. Reading glass forwards into Bauhaus modernism, Walter Benjamin overlooked an early phase of glass culture where the languages of glass are different. The book charts this phase in three parts: Factory, archives, trade union records, and periodicals document the individual manufacturers and artisans who founded glass culture, the industrial tourists who described it, and the systematic politics of window breaking. Part Two, culminating in glass under glass at the Crystal Palace, reads the glassing of the environment, including the mirror, the window, and controversy round the conservatory, and their inscription in poems and novels. Part Three explores the lens from optical toys to philosophical instruments, as the telescope and microscope were known. A meditation on its history and phenomenology. Victorian Glassworlds is a poetics of glass for nineteenth century modernity.

Dreams Designed by God for You Betty Jane Rapin, 2008-12 Dreams can inspire us, frighten us, and open a new world of discovery. But interpreting our dreams is often difficult, if not impossible. Finding a reliable teacher to help us answer all the questions we have can be equally frustrating until now. With warmth and gentleness, Rapin tackles several topics as she explains how you too can understand your dreams.

Window of Dreams James Pack, 2013-01-29 There is a window you can gaze through to see your dreams and nightmares. Are they waiting to become reality or simply images of fears and desires.
