**Aotearoa New Zealand in the Global Theatre Marketplace** James Wenley, 2020-10-18. *Aotearoa New Zealand in the Global Theatre Marketplace* offers a case study of how the theatre of Aotearoa has toured, represented, and marketed itself on the global stage. How has New Zealand work attempted to stand out, differentiate itself, and get seen by audiences internationally? This book examines the journeys of a dynamic range of culturally and theatrically innovative works created by Aotearoa New Zealand theatre makers that have toured and been performed across time, place, and theatrical space, from Moana Oceania to the Edinburgh Festival Fringe, from a Māori Shakespeare adaptation to an immersive zombie theatre experience. Drawing on postcolonialism, transnationalism, cosmopolitanism, and globality to understand how Aotearoa New Zealand has imagined and conceived of itself through drama, the author investigates how these representations might be read and received by audiences around the world, variously reinforcing and complicating conceptions of New Zealand national identity. Developing concepts of theatrical mobility, portability, and the market, this study engages with the whole theatrical enterprise as a play travels from concept and scripting through to funding, marketing, performance, and the critical response by reviewers and commentators. This book will be of global interest to academics, producers, and theatre artists as a significant resource for the theory and practice of theatre touring and cross-cultural performance and reception.

**Evidence-Based Procedural Dermatology** Murad Alam, 2019-05-16. This book compiles the best evidence in procedural dermatology, including skin cancer surgery, laser techniques, minimally invasive cosmetic surgery, and emerging techniques. The best information is provided to reveal the most appropriate interventions for particular indications, optimal treatment techniques, and strategies for avoiding adverse events. *Evidence-Based Procedural Dermatology*, 2nd edition, includes two types of chapters: procedures and indications. Each chapter is designed to be clear and concise, with tables and flowcharts to showcase main findings. Each cited study is tagged with a level of evidence, and every recommendation includes a strength of evidence score. More than double the length of the first edition, this newest edition includes added procedures and interventions like new lasers and energy devices for skin resurfacing and pigmentation, non-invasive fat reduction, and skin tightening using cryolipolysis, radiofrequency, ultrasound, and chemical adipocytolysis, specific post-skin cancer excision, reconstruction techniques, and novel approaches for melanoma.
