However, with the arrival of certain technologies, materials, and knowledge that has come to light since the 20th Century, the methods we now use as part of our strength training regime have grown somewhat. In fact, if you were to look back at what has been written over the centuries regarding strength training, it was something the Ancient Greeks were already doing. Certainly, when you look at some of the pictures that appear on ancient Greek cups and plates, you will see images of men carrying things such as large animals on their back or lifting what seems to be a set of weights.
