**John Galsworthy**

Internet was introduced to the world only in late 1980s and today it is unimaginable to think of a life without it. Despite being ubiquitous, cyber technology is still seen as an enigma by many, mainly due to its rapid development and the high level of science involved. In addition to the existing complexities of the technology, the level of threat matrix surrounding the cyber domain further leads to various misconceptions and exaggerations. Cyber technology is the future, thus forcing us to understand this complex domain to survive and evolve as technological beings. To understand the enigma, the book analyzes and disentangles the issues related to cyber technology. The author unravels the threats that terrorize the cyber world and aims to decrypt its domain. It also presents the existing reality of the cyber environment in India and charts out a few recommendations for enhancing the country's cyber security architecture. Further, the book delves into a detailed analysis of various issues like hacking, dark web, cyber-enabled terrorism, and covert cyber capabilities of countries like the US and China. Please note: Taylor Francis does not sell or distribute the Hardback in India, Pakistan, Nepal, Bhutan, Bangladesh, and Sri Lanka.

**The Silver Box, a Comedy in Three Acts by John Galsworthy** John Galsworthy, 1913      **The Silver Box** B. A.

Peters, 2006-12. Asil is orphaned at the tender age of nine. She is taken under the wing of her scheming Aunt Morag, who is intent on robbing Asil of her inheritance. Guarding a silver box, unaware that it holds the key to some dark secrets, Asil finds herself in a hair-raising adventure. Can Asil be saved from the murderous clutches that are trying to rid of her?      **Stepping Stone and Love Machine** Walter Mosley, 2013-04-02. Walter Mosley's talent knows no bounds. *Stepping Stone* and *Love Machine* are but two of six fragments in the *Crosstown to Oblivion* short novels in which Mosley entertainingly explores life's cosmic questions. From life's meaning to the nature of good and evil, these tales take us on speculative journeys beyond the reality we have come to know. In each tale, someone in our world today is given insight into these long-pondered mysteries. But how would the world really receive the answers? *Stepping Stone*: Truman Pope has spent his whole life watching the world go by and waiting for something he can't quite put into words. A gentle, unassuming soul, he has worked in the mailroom of a large corporation for decades without making waves, until the day he spots a mysterious woman in yellow. A woman nobody else can see. Soon Truman's quiet life begins to turn upside down. An old lover surfaces from his past, even as he finds his job in jeopardy. Strange visions haunt his days and nights until he begins to doubt his sanity. Is he losing his mind, or is he on the brink of a startling revelation that will change his life forever and transform the nature of humanity? *Love Machine*: The *Datasciber* was supposed to merely allow individuals to share sensory experiences via a neurological link, but its true potential is even more revolutionary. The brainchild of an eccentric, possibly deranged scientist, the *Love Machine* can merge individual psyches and memories into a collective *Co Mind* that transcends race, gender, species, and even death itself. Tricked into joining the *Co Mind* as part of a master plan to take over the world, Lois Kim struggles to adapt to her new reality and abilities. Is there any way back to the life that was stolen from her, or is she destined to lead humanity into a strange new era, despite the opposition of forces both human and otherwise?
