Mathematical Imagining Christof Weber,2020 In *Mathematical Imagining* the author makes the case that the ability to imagine manipulate and explain mathematical images and situations is fundamental to all mathematics and particularly important to higher level study Most importantly drawing on years of experiments in his own classroom he shows that mathematical imagining is a skill that can be taught efficiently and effectively in secondary mathematics

Perception and Production of Mandarin Tones by Native Speakers and L2 Learners Bei Yang,2015-02-10 Tones are the most challenging aspect of learning Chinese as a second language and L2 learners perceptual categories differ in important and fascinating ways from those of native speakers This book explores the relationship between tone perception and production among native speakers and non native learners as illustrated in the experiments the author conducted with native speakers true learners and heritage learners all of whom were tested on their ability to produce tones naturally and to perceive 81 synthesized tones in various contexts The experiments show that each group processes tones differently with regard to both register tonal level and contour tonal shape The results also reveal how three types of cues acoustic psychological and contextual influence non native speakers tone perception and production

Concept, Image, and Symbol Ronald W. Langacker,2002 This classic research monograph develops and illustrates the theory of linguistic structure known as Cognitive Grammar and applies it to representative phenomena in English and other languages Cognitive grammar views language as an integral facet of cognition and claims that grammatical structure cannot

be understood or revealingly described independently of semantic considerations It argues that grammar forms a continuum with the lexicon and is reducible to symbolic relationships i e form meaning pairings and consequently that all valid grammatical constructs have some kind of conceptual import The coherence and descriptive potential of cognitive grammar are exemplified by application to a broad variety of grammatical phenomena drawn from numerous languages Official Gazette of the United States Patent and Trademark Office United States.
