Solar Surfer:

Surfer, 2003 *Confessions of a Former Teen Superhero (A gay coming of age novel)* Keith Hartman, 2024-10-22 It's not easy being invulnerable. Back in high school, Josh was secretly the famous superhero KID QUASAR. But he was so busy saving the world that he never had a chance to make any friends. Let alone a boyfriend. So now Josh is living in his mom's basement, struggling to get his first real job after nearly failing out of college. Because it's hard to be an A student when alien arms dealers decide to attack Cleveland in the middle of your sociology final. And as his mom keeps pointing out, being a superhero doesn't actually pay anything. Worse, Josh isn't even a big name superhero anymore. Some showoff named Comet Boy came along, rescued a few celebrities, and became a social media darling. And suddenly, nobody cares about Kid Quasar. Like so many young guys, Josh is feeling lost. He can't be the person that he was back in high school. But he can't figure out what comes next. And even though he has this one amazing thing that makes him special, there's no way for him to make a living at it. He's a misfit who can't find a place for himself in the world. And then Josh meets Rick, the guy who might change everything. There's just one BIG problem: Gay Coming of Age Superhero Story.

The Victorian Period in Twenty-First Century Children's and Adolescent Literature and Culture Sara K. Day, Sonya Sawyer Fritz, 2018-01-19 Victorian literature for audiences of all ages provides a broad foundation upon which to explore complex and evolving ideas about young people. In turn, this collection argues contemporary works for young people that draw on Victorian literature and culture ultimately reflect our own disruptions and upheavals, particularly as they relate to child and adolescent readers and our experiences of them. The essays therein suggest that we struggle now as the Victorians did then to assert a cohesive understanding of young readers and that this lack of cohesion is a result of or a parallel to the disruptions taking place on a larger, even global scale.
