with insights
and predictions
for 2023
from leaders of
the streaming
video industry.

At G&L, we are passionate about sustainability. We're all about engineer-led methods that save energy for all components along the line, from encoding to delivery and playback. No greenwashing here — only fact-based, operationable approaches. Our team is all about using ASIC- and ARM-based encoders, choosing the optimal mix of codecs and resolutions for

devices, and even shutting down delivery servers outside peak hours. Saving energy doesn't mean sacrificing quality, and our solutions provide an optimal viewing experience while conserving resources. Keeping our fingers crossed for nuclear fusion!

Transparency is another key focus. We gather and align metrics for all processes, so you can get actionable insights. We support the latest standards, including CMCD and CMSD, and use scalable, secure data pipelines to provide you with the information you need. We work with an extensive network of professional partners to integrate

industry-leading custom solutions, because you deserve more than off-the-shelf.

Hybrid workflows are becoming increasingly popular, and we're ready to help you adapt. We design a media technology stack that can be operated on-prem, in the cloud, or in hybrid environments. No vendor lock-in, your choice! Our solutions provide flexibility without sacrificing performance, security, or ease of use.

At G&L, we're all about taking a pragmatic, no-bullshit approach to the industry. We're bad at sales pitches — we're here to deliver results that work for you. We're excited to keep providing you with the sustainable, transparent, and flexible architectures you need to differentiate in the world of streaming media.

Sourcebook of United States Executive Agencies David E. Lewis,Jennifer L. Selin,2012 **Ungoverning** Russell Muirhead,Nancy L. Rosenblum,2026-03-24 How a deliberate dismantling of political institutions undermines the essential work of government In this unsettling book Russell Muirhead and Nancy Rosenblum trace how ungoverning the deliberate effort to dismantle the capacity of government to do its work has become a malignant part of politics Democracy depends on a government that can govern and that requires what s called administration The administrative state is made up of the vast array of departments and agencies that conduct the essential business of government from national defense and disaster response to implementing and enforcing public policies of every kind Ungoverning chronicles the reactionary movement that demands dismantling the administrative state The demand is not for goals that can be met with policies or programs When this demand is frustrated as it must be the result is an invitation to violence Muirhead and Rosenblum unpack the idea of ungoverning through many examples of the politics of destruction They show how ungoverning disables capacities that took generations to build including the administration of free and fair elections They detail the challenges faced by officials who are entrusted with running the government and who now face threats and intimidation from those who would rather bring it crashing down and replace the regular processes of governing with chaotic personal rule The unfamiliar phenomenon of ungoverning threatens us all regardless of partisanship or ideological leaning Ungoverning will not be limited to Donald Trump s moment on the political stage To resist this threat requires that we first recognize what ungoverning is and what it portends *China, a Sourcebook of Information* George Ephraim Sokolsky,1920 *National Conference on Tools for Urban Water Resource Management and Protection* ,2000 *Requirements for Recurring Reports to the Congress* ,1977 Describes reports required of executive branch agencies by the Congress on a recurring basis **Sourcebook of United States Executive Agencies** Administrative Conference United States,2016-10-27 he ACUS sourcebook examines the agencies and other organizational entities of the federal executive establishment including independent agencies The results of this study are an especially valuable resource to Congress the judiciary individual agencies the general public and academic researchers in government and public administration No other up to date resource of its kind exists The GAO Review ,1976 **Sourcebook of United States Executive Agencies First Edition December 2012** Administrative Conference of the United States,2017-01-31 This volume honors important traditions and events e first is the Administrative Conference s
