The Problematic Reality Of Values:

The Problematic Reality of Values Jan Bransen, Marc Slors, 1996-01-01 **Human Sciences and the Problem of Values / Les Sciences Humaines et le Problème des Valeurs** K. Kuypers, 2012-12-06 K Kuypers HUMAN SCIENCES AND THE PROBLEM OF VALUES 1 H G Gadamer DAS ONTOLOGISCHE PROBLEM DES WERTES 17 Manfred Moritz AXIOLOGY AND ANALYSIS 33 Ch Perelman LA JUSTIFICATION DES NORMES 47 Max Black THE FACTUAL AND THE NORMATIVE 55 P Lorenzen ON JUSTIFYING NORMS 65 Richard McKeon FACTS VALUES AND ACTIONS 73 N Rotenstreich FREEDOM FROM VALUES EXAMINED 87 PREFACE In accordance with a suggestion made in the preceding assembly of the Institute in Helsinki 1970 as theme of the Entretiens in Amsterdam was chosen Human sciences and the problem of values As usual the organization of the Entretiens was committed to a local committee in close collaboration with the office of the Institute in Paris The conference was held from 8 till 12 September 1971 in the so called Trippenhuis house where lived the family Trip in the 17th and 18th century seat of the Royal Netherlands Academy of Sciences and Letters The sessions were attended by about 70 people not only members but also some invited colleagues and assistants representing the philosophers in the Dutch universities The papers were multiplied and distributed to the participants some time before the beginning of the conference By so doing each speaker rapporteur could restrict himself to a short summary of the main points of his paper or a short comment as introduction immediately followed by a general discussion *The Journal of Philosophy, Psychology and Scientific Methods* ,1916 The Value of Culture Arjo Klamer, 1996 Culture manifests itself in everything human including the ordinary business of everyday life Culture and art have their own value but economic values are also constrained Art sponsorships and subsidies suggest a value that exceeds market price So what is the real value of culture Unlike the usual focus on formal problems which has de cultured and de moralized the practice of economics this book brings together economists philosophers historians political scientists and artists to try to sort out the value of culture This is a book not only for economists and social scientists but also for anybody actively involved in the world of the arts and culture **Rule of Law, Common Values, and Illiberal Constitutionalism** Tímea Drinóczi, Agnieszka Bień-Kacała, 2020-09-08 This book challenges the idea that the Rule of Law is still a universal European value given its relatively rapid deterioration in Hungary and Poland and the apparent inability of the European institutions to adequately address the illiberalization of these Member States The book begins from the general presumption that the Rule of Law since its emergence has been a universal European value a political ideal and legal conception It also acknowledges that the EU has been struggling in the area of value enforcement even if the necessary mechanisms are available and given an innovative outlook and more political commitment could be successfully used The authors appreciate the different approaches toward the Rule of Law both as a concept and as a measurable indicator and while addressing the core question of the volume widely rely on them Ultimately the book provides a snapshot of how the Rule of Law ideal has been dismantled and offers a theory of the Rule of Law in

illiberal constitutionalism It discusses why voters keep illiberal populist leaders in power when they are undeniably acting contrary to the Rule of Law ideal The book will be of interest to academics and researchers engaged with the foundational questions of constitutionalism The structure and nature of the subject matter covered ensure that the book will be a useful addition for comparative and national constitutional law classes It will also appeal to legal practitioners wondering about the boundaries of the Rule of Law

The Concept of Ideals in Legal Theory Sanne Taekema,2002-12-31 Talk about law often includes reference to ideals of justice equality or freedom But what do we refer to when we speak about ideals in the context of law This book explores the concept of ideals by combining an investigation of different theories of ideals with a discussion of the role of ideals in law A comparison of the theories of Gustav Radbruch and Philip Selznick leads up to a pragmatist theory of legal ideals which provides an interesting new position in the debate about values in law between legal positivists and natural law thinkers Attention for law s central ideals enables us to understand law s autonomous character while at the same time tracing its connection to societal values Essential reading for anyone interested in the role of values or ideals in law

Values of Our Times Deshun Li,2013-06-01 Philosophers have gradually accepted axiology as one branch of philosophy As a basic category belonging to axiology and philosophy value is the general abstraction of concrete value formation in various fields including utility ethics and appreciation of the beauty The problem of value is essentially a problem of historical activities of practice in human society The axiology based on the scientific practice view insists on the principle of unification between theory and practice truth and value In research of axiology the relation between subjectivity and objectivity of values is a problem that must be solved in the first place The modern conversation of value philosophy is the academic and practical demands of the value philosophy research in China Value evaluation is an important part of the axiology In order to deepen the research of value philosophy and to promote the development of current value philosophy we must have scientific mode of thinking suitable for the nature of value It is the base of value relation the origin of value needs the process of value creation and actualization and the fundamental way to proving ones value as a human being
