The Slayers Guide To Bugbears:

The Slayer's Guide to Bugbears Mongoose Publishing, Sam Witt, 2002-04-30 Bugbears are cunning adversaries creatures that rarely fight to the death preferring to flee from a lost battle in order to nurse their vengeance for another day

Adventurers who believe they can simply wade into a horde of bugbears and slay them in glorious combat are in for a rude shock and are certain to fall prey to the myriad of traps and ambushes the bugbears use in their own style of warfare This d20 supplement helps Games Masters use bugbears in their campaign in a way players will never forget

The Slayer's Guide to Female Gamers James Desborough, 2002-11-26 This book examines a source of much mystery and consternation to your average role player The Female Gamer and the female of the species in general The only culture present here should be examined under a slide and given a long Latin name before being exterminated with penicillin None of this should be taken as offensive though it probably will be If you cannot see that we are also taking the Mickey out of male gamers as much if not more than gamers of the female persuasion then you need a humour transplant and a kick up your pert well rounded tightly chain mail clad arse Please accept that most gamers do not have issues with women they have a subscription a complete collection from issue one and fancy binders to keep them in Female gamers are a completely unknown quantity to the vast and overwhelming majority of gamers though matters have been ever so slowly changing in that regard As these creatures become more populous in the gaming fraternity it behooves the male gamer to at least make an attempt understand this creature and to make preparations for their increasing invasion It would not do to be caught unawares by any new creature or trap and every adventurer's motto should be Be prepared rather than Experience points Chaaaaaarge

Guide To Orcs Slayer's Guide Compendium I Christopher Allen,2004-12-07 Consisting of eight Slayer s Guide titles brought together for the first time the first Slayer s Guide Compendium provides readers with the opportunity to get their hands on early and out of print Slayer s Guide titles in one convenient hard backed volume The Compendium will also include at least one previously unreleased Slayer s Guide title never before seen in print Furthermore the text will be updated to version 3.5 for the first time bringing all the books up to date The Slayer's Guide to Gnolls Alexander Fenell,Matthew Sprange,Various,2001-07-01 The second supplement in the acclaimed Slayers Guide series from Mongoose Publishing this book focuses on the blood thirsty race of gnolls from their brutal and barbaric society to their lethal tactics of ambush Games Masters will find within these pages a huge amount of new material ready to be incorporated into any existing campaign allowing them to portray gnolls with an unparalleled depth Players will benefit from studying their enemy in intimate detail as each Slayers Guide is an invaluable tool for survival Learn the most effective methods of hunting down and annihilating this evil race *The Slayer's Guide to Harpies* James Maliszewski,Chris Quilliams,2003-02-03 Harpies are cruel and vicious monsters that delight in the suffering of others They elevate selfishness and narcissism to new heights in their constant drive to establish superiority over lesser species such as humans dwarves and elves Yet many Games Masters consider Harpies as no better than animals unthinking brutes that can be used to challenge low and mid level adventurers once creatures such as orcs cease to pose a threat This fails to take into account the unique strengths and abilities of the Harpy which when used properly allow them to be used as opponents for even high level characters The Slayer s Guide to Harpies is packed with information on how to do just that The Slayer's Guide to Undead Gary Gygax,Chris Quilliams,John Creffield,2003-01-03 The Slayer s Guide to Undead is written by Gary Gygax and Jon Creffield and filled with ghoulish secrets and spine chilling lore describing creatures of the night At 128 pages it is another big fat Slayer s Guide in the same vein as the highly popular Slayer s Guide to Dragons The incredible front cover has been done by the talented Chris Quilliams as well as one of the two fantastic but chilling pieces that grace the inside covers Pull this book out during a game and your players will start running for cover The book kicks off with A Demonic Overlord describing the nature of Undead and their relationship with the Lord of the Damned Orcus Excerpts from the Book of Dis give this chapter a creepy tone and GMs are treated to an overview of what creatures make the best types of Undead as well as a treatise on the nature of Undeath itself be it corporeal or incorporeal free willed or mindless The Free Willed Living Dead is a chapter guaranteed to cause players nightmares in their games Covered here are the more potent forms of Undead including Bodaks Devourers Ghouls including a Ghoul King Mummies Wights Gholles As well as a massive amount of background information and gaming tips each also comes with a full blown template allowing you to turn any existing creature into an absolute nightmare A complete scenario has been included in the form of The Peak of the Nightlord designed for 9-11th level characters and the players had better pray they have a cleric in their ranks Detailed maps are provided to plot the action as the players attempt to penetrate the lair of a vampire and this

scenario is very much in the Gary Gygax mould we all know and love The Bestiary of the Damned wraps up this 128 page supplement with 20 creatures of the night that can be pulled out on your players at a moment s notice or be used to fuel your own scenarios A complete index is included allowing handy reference during play [The Slayer's Guide to Kobolds](#) Alejandro Melchor, Mongoose Publishing, Matthew Sprange, 2003-04-03 Kobolds are a common sight in many campaign worlds deemed by most adventurers to be a minor nuisance at best Certainly most experienced adventurers would question the need to study kobolds in any great depth but then few have faced the full might of a kobold clan and lived long enough to warn others of the peril they offer The Slayer s Guide to Kobolds offers insight to all adventurers in the culture and society of this vicious race enabling them to track down engage and wipe out dozens of these murderous beasts It can only be hoped that such efforts will be enough to stall and drive back a race that is almost literally numberless No race in any campaign world however exists solely to provide cannon fodder for allegedly heroic adventurers The Slayers Guide to Kobolds redresses this imbalance by giving Games Masters the information they need to make kobolds a solid and coherent part of their campaign No longer will players merely scoff and draw their swords when they meet a group of kobolds within some ancient ruin Finally kobolds will have the respect they have always deserved Book jacket
