Conceptualization of 'xihuitl' Mutsumi Izeki,2008 This study is concerned with how the Postclassic Mexica people
developed their unique perspective of history and environment in a dynamic cultural context By focusing on the process of

conceptualization of the Nahuatl word xihuitl the author analyzes the way the Mexica expressed their cognition Xihuitl covers a range of meanings turquoise grass solar year comet preciousness blue green and fire The correlations of the meanings of xihuitl can be explained from a structural point of view However structural analysis does not reveal the dynamic experiential processes that produced such correlations in the minds of the Mexica In order to account for this dynamic aspect of the concept the author employs a theory drawn from cognitive science This theory argues that the meanings and representations of a concept are metaphoric extensions that derive from the central sense of the concept Applying this theory the author examines the metaphoric extension of each xihuitl representation from the central sense The author also analyzes the four media of expression linguistic iconographic material and ritual in which representations of xihuitl occur The representations of xihuitl in each medium embody a particular aspect of the concept At the same time the concept as a whole was affected by the Mexica conceptual system the way the Mexica saw their world rooted in the connections they believed existed between themselves and those who established earlier Central Mexican civilizations *Encyclopedia of American Indian Contributions to the World* Emory Dean Keoke, Kay Marie Porterfield, 2009 Describes the lives and achievements of American Indians and discusses their contributions to the world **The Mentor-world Traveler**, 1930 **The Latin-American Mythology** Hartley Burr Alexander, 2022-11-13 This edition presents a thorough and comprehensive study on the folklore and legends of the native inhabitants of Central and South America The materials for the study of native traditions are striking and various from the usual demoniac beliefs and animistic credulities to elaborate formations such as the Aztec and Maya pantheons or the enigmatic Peruvian dogma The study also explores the mythology of Caribbean people as well as the legends from Amazon Brazil and the tales from the far south of the continent Webster's Dictionary from 1903 1908 then became professor of philosophy at the University of Nebraska **Walks in Florence, by S. and J.
