Update Japan:

Japan Update, 1994 Japan's new security partnerships Wilhelm Vosse, Paul Midford, 2018-08-17 After decades of solely relying on the United States for its national security needs over the last decade Japan has begun to actively develop and deepen its security ties with a growing number of countries and actors in the Asia Pacific region and Europe a development that has further intensified under the Shinzo Abe administration This is the first book that provides a comprehensive analysis of the motives and objectives from both the Japanese and the partner countries perspectives and asks what this might mean for the security architecture in the Asia Pacific region and what lessons can be learned for security cooperation more broadly This book is for those interested in Japan's security policy beyond the US Japan security alliance and non US centred bilateral and multilateral security cooperation It is an ideal textbook for undergraduate and graduate level courses on regional security cooperation and strategic partnerships and Japanese foreign and security policy

Japan's Remilitarisation Christopher W. Hughes, 2017-10-03 Is Japan on a path towards assuming a greater military role internationally or has the recent military normalisation ground to a halt since the premiership of Junichiro Koizumi In this book Christopher W Hughes assesses developments in defence expenditure civilmilitary relations domestic and international military industrial complexes Japans procurement of regional and global power projection capabilities the expansion of USJapan cooperation and attitudes towards nuclear weapons constitutional revision and the use of military force In all of these areas dynamic and long term changes outweigh Japans short term political logjam over security policy Hughes argues that many post war constraints on Japans military role are still eroding and that Tokyo is moving towards a more assertive military role and strengthened USJapan cooperation Japans remilitarisation will boost its international security role and the dominance of the USJapan alliance in regional and global security affairs but will need to be carefully managed if it is not to become a source of destabilising tensions *Japan's Nuclear Disaster and the Politics of Safety Governance* Florentine Koppenborg, 2023-06-15 In Japan's Nuclear Disaster and the Politics of Safety Governance Florentine Koppenborg argues that the regulatory reforms taken up in the wake of the Fukushima disaster on March 11 2011 directly and indirectly raised the costs of nuclear power in Japan The Nuclear Regulation Authority resisted capture by the nuclear industry and fundamentally altered the environment for nuclear policy implementation Independent safety regulation changed state business relations in the nuclear power domain from regulatory capture to top down safety regulation which raised technical safety costs for electric utilities Furthermore the safety agency's extended emergency preparedness regulations expanded the allegorical backyard of NIMBY demonstrations Antinuclear protests mainly lawsuits challenging restarts incurred additional social acceptance costs Increasing costs undermined pronuclear actors ability to implement nuclear power policy and caused a rift inside the nuclear village Small nuclear safety administration reforms were in fact game changers for nuclear power politics in Japan Koppenborg's findings contribute to the vibrant conversations about the

rise of independent regulatory agencies crisis as a mechanism for change and the role of nuclear power amid global interest in decarbonizing our energy supply **News Review on Japan, South East Asia, and Australasia** Institute for Defence Studies and Analyses,1978 World Databases in Geography and Geology Chris Armstrong,2020-01-20 No detailed description available for World Databases in Geography and Geology *Britain and Japan* Kenneth D.
