Urban Space and Late Twentieth-Century New York Literature C. Neculai, 2014-03-06 Interdisciplinary in nature this project draws on fiction non fiction and archival material to theorize urban space and literary cultural production in the context of the United States and New York City Spanning from the mid 1970s fiscal crisis to the 1987 Market Crash New York writing becomes akin to geographical fieldwork in this rich study **The Lives of the Popes** Horace Kinder Mann, 1929 **Pope Urban II's Council of Piacenza** Robert Somerville, 2011-10-27 The Council of Piacenza is among the most important moments of the Reform that was sweeping through the Western Church at the end of the eleventh century It

is often regarded as a launching pad for the First Crusade though the matter is obscure and serves only to hide the assembly's true significance as a turning point in the papal schism between Popes Gregory VII Urban II and the so called anti pope Clement III The canons promulgated at Piacenza became landmarks not only for the eleventh and twelfth century Reform but more broadly for the Church of the High Middle Ages and even beyond Robert Somerville situates Piacenza in historical context discusses the sources the attendance and the need for a new edition of the legislation The official canons are lost but several dozen twelfth century manuscripts were consulted for a new edition of these provisions The account finishes with a commentary on Piacenza's legislation and a discussion of the subsequent legislation of Urban II's synods Somerville completes the picture of what can be known about the papal synods of one of the most influential Roman pontiffs of the Middle Ages
