Transcending the Speed of Light Marc Seifer, 2008-08-13 A study of the new scientific understanding of consciousness and the mind as a fifth dimension of reality Introduces the existence of a fifth dimension one of mind an inner or hyperspace where time is transcended Shows how the barrier of the speed of light is actually a gateway demarking the fifth dimension Since the introduction of Descartes dualism in the seventeenth century the mind and the physical world have been viewed as disconnected entities Yet qualities of mind such as awareness purposeful action organization design and even decision making are present within the structure of matter and within the dimensions of space and time The space time continuum of scientists generally ignores the realm of the mind though phenomena such as imaginary numbers used by Einstein to combine space with time are concepts that only exist in the mind Marc Seifer contends that the inadequacy of four dimensional models to account for our experience of mental phenomena points to the consciousness of the mind as a higher organizing principle a fifth dimension where thoughts are as real and quantifiable as our familiar physical world He shows that because thought enables us to move backward and forward through time reflecting on the past and making plans for the future this fifth dimension of mind breaks the laws of relativity thereby transcending the speed of light His extensive study of this fifth dimension ranges from relativity and ether theory to precognition telepathy and synchronicity all from the perspective of the conscious universe

Staretz Encounter Marc J. Seifer, 2003-10 The Mystic Gospels present a Jesus virtually unknown to the average student of history For this is not the Jesus of the white robes walking on clouds impervious to the world and all knowing No this is the human Jesus struggling with and through his life encountering the demons and dragons not only of other people's hearts but of his own This Jesus is like us He is completely human But he is also completely divine It is this knowledge that makes him a mystic His major emphasis is always Love and that is Love plus nothing This Jesus does not

argue theology or religion He is familiar with many traditions including the Hindu Buddhist and Taoist Indeed during his lost years during his twenties about which the Scriptures say nothing he goes to India and studies the world with the masters of mysticism in that exotically spiritual environment This human Jesus although acquainted with sorrows also smiles and laughs easily He is moved easily and it is in his supreme humanness that we can all find our supreme divinity **Wizard** Marc J.
