## **Sublime Desire:**

**Sublime Desire** Amy J. Elias,2001-11-23 In its range and sophistication Sublime Desire is a valuable addition to postmodernist studies as well as to studies of the historical romance novel Amorous Acts Frances L. Restuccia,2006 Amorous Acts uses psychoanalytic concepts to show how queer theory is operating to put in place a non heterosexist social order **The Many Facades of Edith Sitwell** Allan Pero,Gyllian Phillips,2017-06-13 A fascinating book that takes us deep into Edith Sitwell s world of artifice disguise high camp and verbal ingenuity In these essays Sitwell emerges as a central figure in an alternative avant garde in early twentieth century Britain Faye Hammill author of Sophistication A Literary and Cultural History Establishing Edith Sitwell at the center of British modernism this volume showcases her many achievements in poetry autobiography novel writing criticism art and performance Forgoing the gossip about her eccentric appearance and self fashioned persona that has too often overshadowed serious writing about her work the contributors explore how Sitwell combined persona and poetry to foster an outpouring of iconoclastic creativity The Many Facades of Edith Sitwell argues that Sitwell was crucial to the development of a British avant garde that operated alongside the conventionally accepted transatlantic modernism of Ezra Pound and T S Eliot With Sitwell as an influential literary player and social architect the British interwar arts scene was not an ascetic escape from personality as the modernism of Pound and Eliot has often been characterized but an alternative space of flamboyant extravagant and ornate performance Allan Pero is associate professor of English at the University of Western Ontario Gyllian Phillips is associate professor of English studies at Nipissing University **Futurity** Amir Eshel,2013-01-14 When looking at how trauma is represented in literature and the arts we tend to focus on the weight of the past In this book Amir Eshel suggests that this retrospective gaze has trapped us in a search for reason in the madness of the twentieth century s catastrophes at the expense of literature s prospective vision Considering several key literary works Eshel argues in Futurity that by grappling with watershed events of modernity these works display a future centric engagement with the past that opens up the present to new political cultural and ethical possibilities what he calls futurity Bringing together postwar German Israeli and Anglo American literature Eshel traces a shared trajectory of futurity in world literature He begins by examining German works of fiction and the debates they spurred over the future character of Germany s public sphere Turning to literary works by Jewish Israeli writers as they revisit Israel s political birth he shows how these stories inspired a powerful reconsideration of Israel s identity Eshel then discusses post 1989 literature from Ian McEwan s Black Dogs to J M Coetzee s Diary of a Bad Year revealing how these books turn to events like World War II and the Iraq War not simply to make sense of the past but to contemplate the political and intellectual horizon that emerged after 1989 Bringing to light how reflections on the past create tools for the future Futurity reminds us of the numerous possibilities literature holds for grappling with the challenges of both today and tomorrow Haunted Serbia David Norris,2016-05-05 Haunting is what happens when the past is disturbed and the victims of previous violence who are

thought to be buried and forgotten are brought back to the present and made to live again Serbian fiction writers of the 1980s exhume the ghosts of the past re remembering the cruelty of the twentieth century reinterpreting the heroic role of the Partisans and the extraordinary measures taken to defend Yugoslavia s recently won independence and socialist revolution Their uncanny and ghostly imagery challenges the assumptions of the master discourse promoted by the country s orthodox communist authorities and questions the historical roots of social and cultural identities The instability of this period of transition is deepened during the wars of the 1990s when authors turn from the memory of past violence to face the ferocious brutality of new conflicts The haunting evocations in their work continue to articulate fresh uncertainties as the trappings of modern civilization are stripped away and replaced by the destructive logic of civil war The past returns once more with renewed energy in the struggle to make sense of a vastly changed world
