

Why is reading at home so important?

Children with access to 25 books at home complete an average of 2 more years of school than children from homes without any books.

Kids 4-5 years old gain 6 months of reading ability by being read to 3 to 5 times per week.

Reading is a critical skill for succeeding in most school subjects.

A child spends 900 hours a year in school and 7800 hours at home.

Research shows that just 20 minutes a day spent reading with a child helps them develop critical reading skills.

Writing Should Be Read:

Learning to Read: An Integrated View from Research and Practice Terezinha Nunes, 1999-08-31 Literacy research has continued to develop at a rapid pace in these last five years of the millennium. New ideas about how children learn to read have led to a better understanding of the causes of progress and failure in the mastery of literacy with repercussions for children's assessment and teacher education. These new discoveries also allow teachers to transcend the old debates in reading instruction: phonics versus whole language and offer the path to a synthesis. At the same time, research with teachers about their own implementation of methods and the development of their own knowledge about the teaching of literacy has produced a fresh analysis of the practice of literacy teaching. Inspired by these developments, teachers, teacher educators, and researchers worked together to produce this volume which promotes the integration of literacy research and practice.

Learning to Read and Write in the Multilingual Family Xiao-lei Wang, 2011-04-21 This book is a guide for parents who wish to raise children with more than one language and literacy. Drawing on interdisciplinary research as well as the experiences of parents of multilingual children, this book walks parents through the multilingual reading and writing process from infancy to adolescence. It identifies essential literacy skills at each developmental stage and proposes effective strategies that facilitate multiliteracy in particular heritage language literacy development in the home environment. This book can also be used as a reference for teachers who teach in community heritage language schools and in school heritage or foreign language programmes.

The Write to Read Lesley Roessing, 2009-07-30 Use reader response strategies to achieve Common Core goals in reading and in writing. Response journals, brief personal writing in response to reading, can significantly improve reading comprehension. What's more, when scaffolded over the year, reader response strategies promote engagement, build understanding of complex literary and informational text, and even help students provide supporting evidence in their writing. All goals of the Common Core. For educators eager to use reader response strategies, veteran teacher Lesley Roessing presents a unique step-by-step approach that inspires thoughtful reading and skillful writing in Grades 5-12. Based on research and her own classroom experience, Roessing's innovative writing exercises encourage students to read more deeply, develop questions, and participate actively in class. Beginning with simple response tasks and moving toward more complex assignments, the book provides a scaffolded curriculum for the full academic year. Developed for language arts and content area teachers as well as literacy specialists, this resource includes examples of response journals for a wide range of genres including fiction, nonfiction, poetry, and students' personal reading. Strategies for using reader response to guide classroom discussions, group work, book clubs, and journal writing at home. Adaptations for students with diverse abilities. Numerous classroom-ready templates and samples of student work. Discover a well-structured writing curriculum that promotes confident learning and the joy of reading.
