Lawrence,2023-10-20 Using a critical lens derived from ecopsychology and its praxis ecotherapy this book explores the relationships Madeleine L Engle develops for her characters in a selection of the novels from her three Time Austin family and O Keefe family series as those relationships develop along a human nonhuman kinship continuum This is accomplished through an examination both of pairs of novels from the fantastic and the realistic series and of single novels which stand out as slightly different from the most prominent genre in a given series Thus this examination also shows L Engle s fluid movement along a fantasy reality continuum and demonstrates the integration of the three series with each other Importantly through examining these relationships and this movement along continuums in these novels the project demonstrates how ecopsychology and ecotherapy provide strong and important and as yet virtually unexplored intersections with children s literature      **Therapeutic Assessment with Children** Deborah J. Tharinger,Dale I. Rudin,Marita Frackowiak,Stephen E. Finn,2022-03-17 Therapeutic Assessment with Children presents a ground breaking paradigm of psychological assessment in which children and families collaborate with the psychologist assessor to understand persistent problems and find new ways of repairing their relationships and moving forward with their lives This paradigm is systemic client centered and culturally sensitive and is applicable to families from many different backgrounds who often feel misunderstood and disempowered by traditional assessment methods In this book the reader will find a step by step description of Therapeutic Assessment with Children TA C with ample teaching examples to make each step come alive Each chapter includes detailed transcripts of assessment sessions with Henry a ten year old boy and his parents as they progress through a Therapeutic Assessment and find new ways of appreciating each other and being together The combination of didactic and clinical material will give even new clinicians a groundwork from which to begin to practice TA C The volume demonstrates how the core values of TA C collaboration respect humility compassion openness and curiosity can be embedded in psychological assessment with children and families Therapeutic Assessment with Children will be invaluable for graduate assessment courses in clinical counseling and school psychology and for seasoned professionals wanting to learn the TA C model      **The young unicorns** Madeleine L'Engle,1968 A seventeen year old boy former member of a tough
