

Dinkum C++ Library Reference

A C++ program can call on a large number of functions from the **Standard C++ library**. These functions perform essential services such as input and output. They also provide efficient implementations of frequently used operations. Numerous function and class definitions accompany these functions to help you to make better use of the library. Most of the information about the Standard C++ library can be found in the descriptions of the [Standard C++ headers](#) that declare or define library entities for the program.
