British Working Class women authors (born before 1962) a list Stefan Szczelkun ,2025-06-07 A collection of Wikipedia articles edited reformatted and with additions In chronological order References and sections on non literary activity are sometimes omitted hopefully not to the point of misrepresenting the author which might include feminist or political activism To my surprise the biographical material on Wikipedia was sometimes mesmerising although it was uneven Where there were gaps I have tried to fill them from other sources Refer back to the wikipedia articles for more context and references in some cases and if you have a verified source of information please update the Wikipedia article Wikipedia is published under a creative commons licence So this compilation also carries a creative commons licence Introduction Looking through Sarah Richardson s Writing on the Line 1996 I was struck by how many of the working class women writers were from North America and how many more were poets Howard Slater had made a list of British working class male novelists and I selected British woman writers from Writing on the Line and found that most of them now have Wikipedia pages I first made a list of links Wanting to take this further I first looked to focus on novels and short story writers but this category started to break up as many writers wrote in many idioms producing fact fiction poetry plays screenwriting and journalism I decided on an arbitrary cut off point of writers born before 1962 When I first made the list I was thinking how few working class women novelists had been published in this period But then the lists of books by each author started to stack up and there s plenty to read and much that I missed even really hearing about Of course it focuses on the most successful others who produced a community published autobiography or self published novel did not get a Wikipedia page and they should really be included every life counts Others only published an autobiography perhaps in the last years of life

but were extraordinary writers and people We could also discuss discuss the genre snobbery in literary circles that puts crime young peoples literature romantic and fantasy fiction and perhaps historical based narratives in a lower category than the novel

The Selected Papers of Jane Addams: Vol. 2 Jane Addams,2010-10-01 Venturing into Usefulness the second volume of The Selected Papers of Jane Addams documents the experience of this major American historical figure intellectual social activist and author between June 1881 when at twenty one she had just graduated from Rockford Female Seminary and early 1889 when she was on the verge of founding the Hull House settlement with Ellen Gates Starr During these years she was developing into the social reformer and advocate of women s rights socioeconomic justice and world peace she would eventually become She evolved from a high minded but inexperienced graduate of a women s seminary into an educated woman and seasoned traveler well exposed to elite culture and circles of philanthropy Artfully annotated The Selected Papers of Jane Addams offers an evocative choice of correspondence photographs and other primary documents presenting a multi layered narrative of Addams s personal and emerging professional life Themes inaugurated in the previous volume are expanded here including dilemmas of family relations and gender roles the history of education the dynamics of female friendship religious belief and ethical development changes in opportunities for women and the evolution of philanthropy social welfare and reform ideas
