Text Felix Salzer,1962 **Structural Hearing: Music** Felix Salzer,1962 *Structural Hearing; Tonal Coherence in Music.*
With a Foreword Felix Salzer,1952 **Musical Forces** Steve Larson,2012-01-31 Steve Larson drew on his 20 years of
research in music theory cognitive linguistics experimental psychology and artificial intelligence as well as his skill as a jazz
pianist to show how the experience of physical motion can shape one s musical experience Clarifying the roles of analogy
metaphor grouping pattern hierarchy and emergence in the explanation of musical meaning Larson explained how listeners
hear tonal music through the analogues of physical gravity magnetism and inertia His theory of melodic expectation goes
beyond prior theories in predicting complete melodic patterns Larson elegantly demonstrated how rhythm and meter arise
from and are given meaning by these same musical forces Structural Hearing : Vol.2 Felix Salzer,1962 **The**

Coherence in Music, by Felix Salzer. With a Foreword by Leopold Mannes Felix Salzer,Leopold Mannes, Theory, Analysis
and Meaning in Music Anthony Pople,2006-11-02 There have been far reaching changes in the way music theorists and
analysts view the nature of their disciplines Encounters with structuralist and post structuralist critical theory and with
linguistics and cognitive sciences have brought the theory and analysis of music into the orbit of important developments in
intellectual history This book presents the work of a group of scholars who without seeking to impose an explicit redefinition
of either theory or analysis explore the limits of both in this context Essays on the languages of analysis and theory and on
practical issues such as decidability ambiguity and metaphor combine with studies of works by Debussy Schoenberg
Birtwistle and Boulez together making a major contribution to an important debate in the growth of musicology
