The Difference God Makes Peter K. Haile,1981 *The Difference God Makes* Peter Haile,1971 **For the love of God: The difference God makes** Paul Weiss,1962* **The Difference God Makes** Peter Haile,1981 **The Ambiguity of Being** Jonathan R. Heaps,2024-01-12 The debate in Catholic theology over the relationship between the natural and the supernatural has only occasionally engaged with Bernard Lonergan s philosophical and theological contributions on the topic The Ambiguity of Being argues that more detailed engagement with Lonergan s work implies an oversight in both the 20th and 21st century debates The Ambiguity of Being argues the controversy has failed to notice how the problem of the natural and the supernatural is in fact two problems The Ambiguity of Being takes both problems in their widest sense to be about

action both divine and human The first problem asks how God can act in human action A question for Christians at least since St Augustine faced the Pelagian controversy Lonergan retrieved what he understood to be St Thomas Aquinas mature solution It is a solution gathering together a whole series of theological and philosophical developments into a subtle metaphysical theory of divine and human cooperation But the recent debates have resituated this problem and various interpretations of St Thomas s solution to it in a modern world with modern concerns about culture and politics for the sake of answering a second intrinsically related but really distinct question what is God doing in human action Ambiguity finds that the recent controversy almost always finds participants attempting to deduce an answer to the second modern problem from the medieval metaphysical Thomist solution to the first By contrast The Ambiguity of Being argues at length the modern problem cannot be reduced to nor an answer deduced from its medieval metaphysical partner because the modern problem of the supernatural what is God doing in human action is a hermeneutical problem that calls out for a hermeneutical answer The Ambiguity of Being sketches a heuristic for what a fully adequate answer to this question would require suggesting a radical re conception of modern theology s scope
