## **Transformational Acting:**

Transformational Acting Sande Shurin, 2002 Limelight Sande Shurin's enlightened acting technique is a determined effort to steer away from intellectual theory based instruction to a more creative and viscerally human approach. It moves beyond teaching how to represent a character or various emotions toward living a role with in the moment identification and urgency. Asserts Rapp of *Rent* fame. Since I started working with Sande I think it's safe to say my work on character and my ability to transform into character have exploded and expanded beyond anything I previously would have imagined. *From Acting to Performance* Philip Auslander, 2002-04-12 This first collection of essays by performance theorist and critic Philip Auslander surveys the changes in acting and performance during the crucial transition from the ecstatic theatre of the 1960s to the ironic postmodernism of the 1980s. *The Roots of Theatre* Eli Rozik, 2005-04 The topic of the origins of theatre is one of the most controversial in theatre studies with a long history of heated discussions and strongly held positions. In *The Roots of Theatre* Eli Rozik enters the debate in a feisty way offering not just another challenge to those who place theatre's origins in ritual and religion but also an alternative theory of roots based on the cultural and psychological conditions that made the advent of theatre possible. Rozik grounds his study in a comprehensive review and criticism of each of the leading historical and anthropological theories. He believes that the quest for origins is essentially misleading because it does not provide any significant insight for our understanding of theatre. Instead he argues that theatre like music or dance is a sui generis kind of human creativity a form of thinking and communication whose roots lie in the spontaneous image making faculty of the human psyche. Rozik's broad approach to research lies within the boundaries of structuralism and semiotics but he also utilizes additional disciplines such as psychoanalysis neurology sociology play and game theory science of religion mythology poetics philosophy of language and linguistics. In seeking the roots of theatre what he ultimately defines is something substantial about the nature of creative thought a rudimentary system of imagistic thinking and communication that lies in the set of biological primitive and infantile phenomena such as daydreaming imaginative play children's drawing imitation mockery caricature parody storytelling and mythmaking. *Embodied Acting* Rick Kemp, 2012 A focus on the body its actions and its cognitive mechanisms identifies foundational principles of activity that link the three elements of theatre Story Space and Time. The three meet in and are defined by and expressed through the actor's body from the Introduction. *Embodied Acting* is an essential pragmatic intervention in the study of how recent discoveries within cognitive science can and should be applied to performance. For too long a conceptual separation of mind and body has dominated actor training in the West. Cognitive science has shown this binary to be illusory shattering the traditional boundaries between mind and body reason and emotion knowledge and imagination. This revolutionary new volume explores the impact that a more holistic approach to the bodymind can have on the acting process. Drawing on his experience as an actor director and scholar Rick Kemp interrogates the key cognitive activities involved in performance including non verbal communication the relationship

between thought speech and gesture the relationship between self and character empathy imagination and emotion New perspectives on the work of Stanislavski Michael Chekhov and Jacques Lecoq as well as contemporary practitioners including Daniel Day Lewis and Katie Mitchell are explored through practical exercises and accessible explanations Blending theory practice and cutting edge neuroscience Kemp presents a radical re examination of the unconscious activities engaged in creating and presenting a role

**Generating Theatre Meaning** Eli Rozik,2007-12-01 Offers a theory and methodology of performance analysis as an alternative to traditional play analysis This book carries an underlying theme that theatre performance is a descriptive text generated by the theatre medium and that the process of generating meaning takes place in the actual encounter between a theatre performance and the spectator

**The Actor and the Character** Vladimir Mirodan,2018-11-12 Transformative acting remains the aspiration of many an emerging actor and constitutes the achievement of some of the most acclaimed performances of our age Daniel Day Lewis as Lincoln Meryl Streep as Mrs Thatcher Anthony Hopkins as Hannibal Lecter the list is extensive and we all have our favourites But what are the physical and psychological processes which enable actors to create characters so different from themselves To understand this unique phenomenon Vladimir Mirodan provides both a historical overview of the evolution of notions of character in Western theatre and a stunning contemporary analysis of the theoretical implications of transformative acting

**The Actor and the Character** Surveys the main debates surrounding the concept of dramatic character and contrary to recent trends explains why transformative actors conceive their characters as independent of their own personalities Describes some important techniques used by actors to construct their characters by physical means work on objects neutral and character masks Laban movement analysis Viewpoints etc Examines the psychology behind transformative acting from the perspectives of both psychoanalysis and scientific psychology and based on recent developments in psychology asks whether transformation is not just acting folklore but may actually entail temporary changes to the brain structures of the actors

**The Actor and the Character** speaks not only to academics and students studying actor training and acting theory but contributes to current lively academic debates around character This is a compelling and original exploration of the limits of acting theory and practice psychology and creative work in which Mirodan boldly re examines some of the fundamental assumptions of actor training and some basic tenets of theatre practice to ask What happens when one of us becomes somebody else
