Mainly Logging, 1974 The Forest Emergency Recovery and Research Act United States. Congress. House. Committee on Agriculture, 2006 The Fourth Circle John Fitzgerald McCarthy, 2006 This book analyzes the political legal and economic dynamics shaping environmental outcomes across two districts in Aceh one of the richest and most expansive areas of tropical rainforest in Southeast Asia Its central theme is that the present cycle of ecological decline can best be understood in terms of the way political economic and social forces operate at the district level

At the Edges of States Michael Eilenberg, 2012-01-01 Set in West Kalimantan Indonesian Borneo this study explores the shifting relationships between border communities and the state along the political border with East Malaysia The book rests on the premise that remote border regions offer an exciting study arena that can tell us important things about how marginal citizens relate to their nation state The basic assumption is that central state authority in the Indonesian borderlands has never been absolute but waxes and wanes and state rules and laws are always up for local interpretation and negotiation In its role as key symbol of state sovereignty the borderland has become a place where central state authorities are often most eager to govern and exercise power But as illustrated the borderland is also a place where state authority is most likely to be challenged questioned and manipulated as border communities often have multiple loyalties that transcend state borders and contradict imaginations of the state as guardians of national sovereignty and citizenship
