Gravity Daniel Canogar,Jesús González Reguena,2002 Daniel Canogar s photographs and photographic installations have
long dwelt on issues of immersion and realism of corporeal images and sensations of light instrumentalized to reveal
figments and traces of visual matter His consistent use of photography undermines and transcends simple questions of
photographic realism through play and variable scales obsessive pseudo repetition and disconcerting projection procedures
and surfaces The Zero Gravity opus contains *Departure* a forest of manipulable fiber optic cables that obliges spectators to
blaze their own image trails *Pulse of Darkness* projects an endless wall to wall loop of photographed bones and *Leap of Faith*
adopts a panoramic cylindrical structure as an ethereal white surface charged with dozens of floating bodies Daniel Canogar
was born in 1964 in Madrid where he continues to live and work He studied visual communications and received a Master s

Garside,2014-02-06 My poetry covers a great range in verbal style tone and subject matter It is often markedly ironic and or
satirical particularly when dealing with social or political issues The poetry also tends to want to explore spiritual and or
philosophical questions and can be seen to reflect the poets English ancestry and literary heritage his sense of the history
and changing political landscape of South Africa and to raise the great conundrums regarding the place of human beings in a
cosmos that science is revealing is far stranger than we thought perhaps stranger than we ever could have imagined Lastly
the poems particularly those written over the last few years can show a somewhat playful even irreverent attitude to the idea
of poets and poetry that we can characterize as postmodern but which for all their playfulness and reference to popular
culture raise concerns about the future of poetry and the human values with which poetry has always strongly identified in
our globalized mass media world of the sound bite and the visual image **Scientific and Technical Aerospace Reports**

documents that have recently been entered into the NASA Scientific and Technical Information Database **Zero Gravity -**
